Effective Teacher Induction and Mentoring Michael Strong, 2009-01-12 Larry Cubans How Teachers Taught has been widely acclaimed as a pathbreaking text on the history and evolution of classroom teaching Now Cuban brings his great experience as a classroom teacher superintendent and researcher to this highly anticipated follow up to his groundbreaking work Focusing on three diverse school districts Arlington Virginia Denver Colorado Oakland California Hugging the Middle offers an incisive portrayal of how teachers teach now It is a revealing look at a range of current workable pedagogical options educators are using to engage students while satisfying parents and policymakers options that succeed by creating hybrid practices that combine both teacher centered approaches e g mostly direct instruction textbooks lectures with student centered ones e g team projects on real world problems independent learning small groupwork This book serves as a state of the profession assessment in an era of top down educational policy *Handbook of Special Education* James M.

Kauffman, Daniel P. Hallahan, 2011-05-15 Special education is now an established part of public education in the United States by law and by custom. However, it is still widely misunderstood and continues to be dogged by controversies related to such things as categorization, grouping, assessment, placement, funding, instruction, and a variety of legal issues. The purpose of this 13-part, 57-chapter handbook is to help profile and bring greater clarity to this sprawling and growing field. To ensure consistency across the volume, chapter authors review and integrate existing research, identify strengths and weaknesses, note gaps in the literature, and discuss implications for practice and future research. Key features include Comprehensive Coverage: Fifty-seven chapters cover all aspects of special education in the United States, including cultural and international comparisons. Issues/Trends: In addition to synthesizing empirical findings and providing a critical analysis of the status and direction of current research, chapter authors discuss issues related to practice and reflect on trends in thinking. Categorical Chapters: In order to provide a comprehensive and comparative treatment of the twelve categorical chapters in section IV, chapter authors were asked to follow a consistent outline: Definition, Causal Factors, Identification, Behavioral Characteristics, Assessment, Educational Programming, and Trends and Issues. Expertise: Edited by two of the most accomplished scholars in special education, chapter authors include a carefully chosen mixture of established and rising young stars in the field. This book is an appropriate reference volume for anyone: researchers, scholars, graduate students, practitioners, policy makers, and parents interested in the state of special education today, its research base, current issues and practices, and future trends. It is also appropriate as a textbook for graduate-level courses in special education.

Rethinking Teacher Preparation

Program Design Etta R. Hollins, Connor K. Warner, 2021-05-30 This book provides a framework, concrete examples, and tools for designing a high-quality, academically robust preservice teacher preparation program that empowers teachers with the depth of professional knowledge and the skills required to become adaptable, responsive K-12 teachers ready to engage with diverse groups of students and to achieve consistent learning outcomes. Renowned teacher educators Etta R. Hollins and Connor K. Warner present a systematic approach for developing a teacher preparation program characterized by coherence, continuity, consistency, integrity, and trustworthiness, as well as one that is firmly grounded in collaboration between faculty, community members, and other school practitioners. This book offers an evidence-based roadmap relevant for teacher educators, administrators, scholars, agencies at the state and national levels, and any organization that serves teacher educators.
