Creating a Healthy School Using the Healthy School Report Card, Canadian David K. Lohrmann, Sandra Vamos, Yeung, 2011-12-19 How well does your school support the health and well being of students and staff members? Explore the answer with this ASCD Action Tool and accompanying online scoring and analysis tool. Updated to reflect current research, new standards and best practices, the Canadian second edition of the action tool guides you through the four steps of the Healthy School Report Card process with rationale, tips from successful participants and easy to use tools. Tools for organizing can help you develop a school level process for working with your community. Then you can use the scoring tools to assess your school's current health programming and create an evidence based environment that supports learning and teaching. This Canadian second edition includes updated indicators for the 11 characteristics of a healthy school. Expanded description of how healthy school communities fit into ASCD's Whole Child Initiative. Testimonials and lessons learned from sites that have implemented the Healthy School process. More ideas for how schools can create plans that fit their unique situations and share data with their community. The Healthy School Report Card is the ideal tool to help you meet required guidelines, identify and prioritize improvements and garner the support of policymakers, family members and the community.

Organizational Report Cards William T. Gormley Jr., David L. Weimer, 1999-03 In recent years consumers professional organizations government officials and third party payers have become increasingly concerned about how to assess the quality of the services provided by organizations in both the private and the public sectors One new approach is the organizational report card which compares the performance of organizations such as public schools colleges hospitals and HMOs This book offers the first comprehensive study of such instruments It discusses the circumstances under which they are desirable alternatives to other policy instruments such as regulation how they should be designed who is

likely to use them and for what purpose and what role if any government should have in their creation Informed by cases drawn from education health and other policy areas this book develops a conceptual framework for analyzing these issues It explores the tradeoffs in measuring performance the methods of communicating results effectively to mass and elite audiences and the ways in which organizations respond to the data gathered
