## HOW TO POSE... HEADSHOTS & HANDS

Digital  
**Camera**  
World

### LOOK DOWN

Ask your model to look down to give the shot a thoughtful mood and focus attention on the hands.  
Top tip: Use strong eye makeup and shoot this from above to get a better view of the lashes.

### WANDERING HANDS

Ask your model to bring their hands up to their face, with fingers on one hand resting on the palm of the other, and chin lowered down.  
Top tip: Whites under each iris give eyes impact.

### SIT DOWN

Ask the model to sit side-on, resting the elbows on the knees and with hands underneath the chin.  
Top tip: Hands create a nicer shape if side-on rather than flat, with fingers gently curled.

### ONE-HANDED

Ask your model to stand side-on, with her chin angled towards the front shoulder, then bring one hand up to delicately brush the cheek.  
Top tip: Crop the shot close to the hairline.

### SIMPLE BUT STRONG

A straightforward close-up is classic. Ask the model to look directly at the camera, lips slightly parted.  
Top tip: Try a very shallow depth of field for this; as they're straight on, both eyes should be sharp.

### WINDSWEPT

Ask the model to stand side-on, then use an electric fan to blow the hair across the face.  
Top tip: Moving hair makes composing, focusing and expressions tricky, so take plenty of shots.

### ENLIGHTENED

Ask your model to look up and to the side, and bring the hands up to the face, to create a reflective mood.  
Top tip: Eyes right suggests a more hopeful mood, while eyes left looks more contemplative.

### PERFECT SYMMETRY

Bring both hands together at the wrist with fingers on each cheek to create a symmetrical frame.  
Top tip: Angle the face towards your light source for good catchlights and flattering light.

### FRAME THE FACE

Bring one hand up to the chin, with the other arm resting on top of the head to frame the face.  
Top tip: Think about how to pose the hair to create a natural frame for the face.
