Michael Gray,2016-10-12 We have an uneasy relationship with the relentless deluge of information gushing out of academia and our media outlets To turn it off is escapist but to attempt to cognitively grapple with it is overwhelming In Unforgettable Enabling Deep and Durable Learning a nationally recognized master teacher gives professors and their students the means to chart a clear path through this information explosion

Humans crave explanatory patterns and this book enables teachers to think deeply about their academic disciplines to find and articulate their core explanatory principles and to engage their students in a compelling way of thinking. An alternative title for this book could be *Why the Best College Teachers Do What They Do* because the author articulates a compelling rationale that will equip faculty to create and deliver transformative courses. Students in transformative courses grapple with essential questions and gain mental muscle that equips them for real world challenges.

Framing the Environmental Humanities, 2018-07-17 The concept of framing has long intrigued and troubled scholars in fields including philosophy rhetoric media studies and literary criticism. But framing also has rich implications for environmental debate urging us to reconsider how we understand the relationship between humans and their ecological environment culture and nature. The contributors to this wide ranging volume use the concept of framing to engage with key questions in environmental literature history politics film TV and pedagogy. In so doing they show that framing can serve as a valuable analytical tool connecting different academic discourses within the emergent interdisciplinary field of the environmental humanities. No less importantly they demonstrate how increased awareness of framing strategies and framing effects can help us move society in a more sustainable direction.

Assessment Peter Schwartz, Graham Webb, 2014-04-08 The fourth volume in this series deals with one of the ubiquitous higher and further education subjects. With a practice based approach the text avoids being overly academic and instead uses a case study format to detail a wide range of approaches to assessment.

Learning Country in Landscape Architecture David S. Jones, 2021-02-27 This book strategically focuses upon the feasibility of positioning Indigenous Knowledge Systems into tertiary built environment education and research in Australia. Australian tertiary education has little engaged with Indigenous peoples and their Indigenous Knowledge Systems and the respectful translation of their Indigenous Knowledge Systems into tertiary education learning. In contrast while there has been a dearth of discussion and research on this topic pertaining to the tertiary sector the secondary school sector has passionately pursued this topic. There is an uneasiness by the tertiary sector to engage in this realm overwhelmed already by the imperatives of the Commonwealth's Closing the Gap initiative to advance Aboriginal and Torres Strait Islander tertiary education successes and appointments of Indigenous academics. As a consequence the teaching of Indigenous Knowledge Systems relevant to professional disciplines particularly landscape architecture where it is most apt is overlooked and similarly little addressed in the relevant professional institute education accreditation standards.

The Regulation of Megabanks Katarzyna Parchimowicz, 2022-11-22 Global systemically important banks (G-SIBs) are the largest most complex and in the event of their potential failure most threatening banking institutions in the world. The Global Financial Crisis (GFC) was a turning point for G-SIBs many of which contributed to the outbreak and severity of this downturn. The unfolding of the GFC also revealed flaws and omissions in the legal framework applying to financial entities. In the context of G-SIBs it clearly demonstrated that the legal regimes both in the USA and in the EU grossly ignored the specific character of these institutions and their systemic

importance complexity and individualism As a result of this omission these megabanks were long treated like any other smaller banking institutions Since the GFC legal systems have changed a lot on both sides of the Atlantic and global and national lawmakers have adopted new rules applying specifically to G SIBs to reduce their threat to financial stability This book explores whether the G SIB specific regulatory frameworks are adequately tailored to their individualism in order to prevent them from exploiting overly general rules as they did during the GFC Analyzing the specific character and individualism of G SIBs in relation to their history normal functioning as well as their operations during the GFC this book discusses transformation of banking systems and the challenges and opportunities G SIBs face such as Big Tech competitors climate related requirements and the COVID 19 pandemic Taking a multidisciplinary approach which combines financial aspects of operations of G SIBs and legal analysis the book describes G SIB oriented legal frameworks of the EU and the USA and assesses whether G SIB individualism is adequately reflected analyzing trends in supervisory action when it comes to discretion in the G SIB context all in order to contribute to the ongoing discussions about international banking law its problems and potential remedies to such persistent flaws

Fractal Sustainability Isabel Canto de Loura, Robin Dickinson, 2016-08-12 Even though the fractal approach to sustainability and organizational change management is not new no authors so far seem to have truly attempted to use fractals as a mathematical means to map and measure organizational sustainability Several sustainability maturity models and change management models and frameworks concepts and computer generated systems came to the fore during the past two decades They provided a set of useful tools for managers academics and students to refer to or on which to base their own actions and plans However one issue remains most of those models and frameworks share a rather similar linear skeleton the main difference between them is the quantitative variety of steps within each phase stage and parameter and how in depth each of these is presented The authors work addresses a clear gap in the literature and in applied research as it emphasizes the relevance of using a complex mathematically based but user friendly fractal approach Readers are able to better understand implement map and measure change management processes leading to a sustainability focused mindset Subsequent chapters guide you through the steps towards creating committed sustainability based strategies attitudes actions and practices across all levels in the broad organizational context This text is essential reading for students researching business and management and who are interested in the Fractal Sustainability concept

Living in Indigenous Sovereignty Elizabeth Carlson-Manathara, 2021-04-15T00:00:00Z In the last decade the relationship between settler Canadians and Indigenous Peoples has been highlighted by the Truth and Reconciliation Commission the National Inquiry into Missing and Murdered Indigenous Women and Girls the Idle No More movement the Wet suwet en struggle against pipeline development and other Indigenous led struggles for Indigenous sovereignty and decolonization Increasing numbers of Canadians are beginning to recognize how settler colonialism continues to shape relationships on these lands With this recognition comes the question many settler Canadians are now

asking what can I do Living in Indigenous Sovereignty lifts up the wisdom of Indigenous scholars activists and knowledge keepers who speak pointedly to what they are asking of non Indigenous people It also shares the experiences of thirteen white settler Canadians who are deeply engaged in solidarity work with Indigenous Peoples Together these stories offer inspiration and guidance for settler Canadians who wish to live honourably in relationship with Indigenous Peoples laws and lands If Canadians truly want to achieve this goal Carlson and Rowe argue they will pursue a reorientation of their lives toward living in Indigenous sovereignty living in an awareness that these are Indigenous lands containing relationships laws protocols stories obligations and opportunities that have been understood and practised by Indigenous peoples since time immemorial Collectively these stories will help settler Canadians understand what transformations we must undertake if we are to fundamentally shift our current relations and find a new way forward together Visit for more details <https://www.storiesofdecolonization.org> Watch the book launch video here [Making Homes](#) Sarah Pink, Kerstin Leder Mackley, Roxana Morosanu, Val Mitchell, Tracy Bhamra, 2020-05-26 Making Homes Anthropology and Design is a strong addition to the emerging field of design anthropology Based on the latest scholarship and practice in the social sciences as well as design this interdisciplinary text introduces a new design ethnography which offers unique and original approaches to research and intervention in the home Presenting a coherent theoretical and methodological framework for both ethnographers and designers the authors examine hot topics ranging from movements and mobilities to im material environments to digital culture and confront the challenges of a research and design environment which seeks to bring about the changes required for a sustainable resilient safe and comfortable future Written by leading experts in the field the book draws on real life examples from a wide range of international projects developed by the authors other researchers and designers Illustrations throughout help to convey the methods and research visually Readers will also have access to a related website which follows the authors ongoing research and includes video and written narrative examples of ethnographic research in the home Transforming current understandings of the home this is an essential read for students and researchers in fields such as design anthropology human geography sociology and media and communication studies [Second Generation Cell and Gene-Based Therapies](#) Alain Vertes, Nathan J. Dowden, Devyn Smith, Nasib Qureshi, 2020-02-07 Second Generation Cell and Gene Based Therapies Biological Advances Clinical Outcomes and Strategies for Capitalisation serves as the only volume to the market to bridge basic science clinical therapy technology development and business in the field of cellular therapy cytotherapy After more than two decades of painstaking fundamental research the concept of therapeutic cells stem cells genes etc beyond the concept of vaccines is reaching clinical trial with mounting confidence in the safety and efficacy of these products Nonetheless numerous incremental technical advances remain to be achieved Thus this volume highlights the possible R D paths which will ultimately facilitate clinical delivery of cutting edge curative products The next waves of innovation are reviewed in depth for hematopoietic stem cells mesenchymal stem cells tissue engineering CAR T cells and

cells of the immune system as well as for enabling technologies such as gene and genome editing. Additionally, deep dives in product fundamentals, history of science, pathobiology of diseases, scientific and technological bases, and financing and technology adoption constraints are taken to unravel what will shape the cytotherapy industry to the horizon 2025 and beyond. The outcome is not simply a scientific book but a global perspective on the nascent field combining science, business, and strategic fundamentals. Helps readers learn about the most current trends in cell-based therapy, their overall effectiveness from a clinical perspective, and how the industry is moving therapies forward for capitalization. Perspectives section at the end of each chapter summarizes key learnings, hypotheses, and objectives highlighted and combines scientific and business insights. Edited and authored by scientists representing both basic and clinical research and industry, presenting a complete story of the current state and future promise of cellular therapies.

The Spaces In Between Tim Schouls, 2023-11-30. *The Spaces In Between* examines prospects for the enhanced practice of Indigenous political sovereignty within the Canadian state. As Indigenous rights include the right to self-determination, the book contends that restored practices of Indigenous sovereignty constitute important steps forward in securing better relationships between Indigenous peoples and the Canadian state. While the Canadian state maintains its position of dominance with respect to the exercise of state sovereignty, Tim Schouls reveals how Indigenous nations are nevertheless carving out and reclaiming areas of significant political power as their own. By means of strategically acquired legal concessions through hard-fought political negotiations and sometimes through simple declarations of intent, Indigenous nations have repeatedly compelled the Canadian state to roll back its jurisdiction over them. In doing so, they have enhanced their prospects for political sovereignty within Canada. As such, they now increasingly occupy what Schouls refers to metaphorically as the spaces in between. The book asserts that occupation of these jurisdictional spaces in between not only goes some distance in meeting the requirements of Indigenous rights but also contributes to Indigenous community autonomy and well-being, enhancing prospects for reconciliation between Indigenous peoples and the Canadian state.

Freedom: The End of the Human Condition Jeremy Griffith, 2016-05-24. *FREEDOM* has its own very informative website; visit www.humancondition.com. The fastest growing realization everywhere is that humanity can't go on the way it is going. Indeed, the great fear is we're entering endgame where we appear to have lost the race between self-destruction and self-discovery, the race to find the psychologically relieving understanding of our good and evil-afflicted human condition. Well, astonishing as it is, this book by biologist Jeremy Griffith presents the 11th-hour breakthrough biological explanation of the human condition necessary for the psychological rehabilitation and transformation of our species. The culmination of 40 years of studying and writing about our species psychosis, *FREEDOM* delivers nothing less than the holy grail of insight we have needed to free ourselves from the human condition. It is in short as Professor Harry Prosen, a former president of the Canadian Psychiatric Association, asserts in his Introduction: "The book that saves the world." Griffith has been able to venture right to the bottom of the dark

depths of what it is to be human and return with the fully accountable true explanation of our seemingly imperfect lives At long last we have the redeeming and thus transforming understanding of human behaviour And with that explanation found all the other great outstanding scientific mysteries about our existence are now also able to be truthfully explained of the meaning of our existence of the origin of our unconditionally selfless moral instincts and of why we humans became conscious when other animals haven't Yes the full story of life on Earth can finally be told and all of these incredible breakthroughs and insights are presented here in this greatest of all books **Reframing Qualitative Research Ethics**

Nietzsche's Gods Russell Re Manning,Carlotta Santini,2022-10-24 The place or absence of God in Nietzsche's thought remains central and controversial Nietzsche's proclamation of the death of God is one of the most famous and parodied slogans in modern philosophy seeming to encapsulate the nineteenth century loss of religious faith in the affirmation that God has turned out to be our oldest lie and yet the nature of Nietzsche's own theology is far from clear This volume engages with Nietzsche's arguments about God theology and religion The volume extends the discussion to an engagement of Nietzsche with alternative models of God with ancient Greek religions and with discussions of diversity race class gender sex in conjunction with religion The chapters examine Nietzsche's genealogy of religion and his claims about the place of God and theology in the history of Western thought that faith of the Christians which was also Plato's faith as well as his engagements with alternative conceptions of God The volume also examines the historical and contemporary reception of Nietzsche's arguments about God by religious and non religious thinkers asking to what extent Nietzsche's philosophy of God speaks to the challenges of today's globalized philosophy and religion *Handbook of Research on Economic and Social Well-Being* Conchita D'Ambrosio,2018-03-30 The past decade has been characterized by a burgeoning interest in new

concepts of individual and social well being The impetus for this new research has stemmed from increased demand from policy makers and civil society for measures of progress that go beyond the traditional measures of GDP as well as improved datasets allowing individuals and households to be tracked over their life course The aim of this Handbook is to chart these developments and provide extensive surveys of many of the recent themes that have emerged in the research literature Some of the topics addressed include poverty relative deprivation and satisfaction economic insecurity social exclusion and inequality income and social polarization and social fractionalization and diversity Each topic is first analyzed from a theoretical perspective followed by detailed empirical discussion

Accountability for Mass Starvation

Bridget Conley,Alex de Waal,Catriona Murdoch,Wayne Jordash QC,2022-09-01 Famine is an age old scourge that almost disappeared in our lifetime Between 2000 and 2011 there were no famines and deaths in humanitarian emergencies were much reduced The humanitarian agenda was ascendant Then in 2017 the United Nations identified four situations that threatened famine or breached that threshold in north eastern Nigeria Somalia South Sudan and Yemen Today this list is longer Each of these famines is the result of military actions and exclusionary authoritarian politics conducted without regard to the wellbeing or even the survival of people Violations of international law including blockading ports attacks on health facilities violence against humanitarian workers and obstruction of relief aid are carried out with renewed impunity Yet there is an array of legal offenses ranging from war crimes and crimes against humanity to genocide available to a prosecutor to hold individuals to account for the deliberate starvation of civilians However there has been a dearth of investigations and accountability for those violating international law The reasons for this neglect and the gaps between the black letter law and practice are explored in this timely volume It provides a comprehensive overview of the key themes and cases required to catalyze a new approach to understanding the law as it relates to starvation It also illustrates the complications of historical and ongoing situations where starvation is used as a weapon of war and provides expert analysis on defining starvation early warning systems gender and mass starvation the use of sanctions journalistic reporting and memorialization of famine

The Limits of Identity: Early Modern Venice, Dalmatia, and the Representation of Difference

Karen-edis Barzman,2017-04-18 This book considers the production of collective identity in Venice Christian civic minded anti tyrannical which turned on distinctions drawn in various fields of representation from painting sculpture print and performance to classified correspondence Dismemberment and decapitation bore a heavy burden in this regard given as indices of an arbitrary violence ascribed to Venice s long time adversary the infidel Turk The book also addresses the recuperation of violence in Venetian discourse about maintaining civic order and waging crusade Finally it examines mobile populations operating in the porous limits between Venetian Dalmatia and Ottoman Bosnia and the distinctions they disrupted between Venetian and Turk until their settlement on farmland of the Venetian state This occurred in the eighteenth century with the closing of the borderlands thresholds of difference against which early modern Venetian ness was repeatedly measured and affirmed

Literature

and the Public Good Rick Rylance, 2016-10-05 The Literary Agenda is a series of short polemical monographs about the importance of literature and of reading in the wider world and about the state of literary education inside schools and universities The category of the literary has always been contentious What is clear however is how increasingly it is dismissed or is unrecognised as a way of thinking or an arena for thought It is sceptically challenged from within for example by the sometimes rival claims of cultural history contextualized explanation or media studies It is shaken from without by even greater pressures by economic exigency and the severe social attitudes that can follow from it by technological change that may leave the traditional forms of serious human communication looking merely antiquated For just these reasons this is the right time for renewal to start reinvigorated work into the meaning and value of literary reading Rick Rylance addresses the debate over the public value of literary studies in a book which starts from the widely remarked predicament of the humanities in modern times By comparison with science technology engineering and mathematics the humanities can be negatively characterised as at best optional extras at worst frivolous and wasteful Funders and policy makers can question their value in terms of utility vocational prospects and intrinsic worth while journalists and commentators predict extinction So what is the justification for literature at the present time Rylance argues that literature's value lies in its enormous public presence and its contribution to the public good Far from being apologetic for our investment in literature he argues for its value to all parts of our society from economic productivity to personal and social wellbeing He examines discussion of literature's public role over time taking in key moments of self reflection such as Sir Philip Sidney's Defense of Poesy 1581 and work by John Mill and Ruskin He reviews current arguments about how culture creates value from the idea of public goods in economics to the value of reading for social consciousness in cognitive psychology The book makes strong claims for the importance and urgency of reading literature today
