Graduation Speech

Congratulations graduates! Today is a great day. It's a day to celebrate with your families and friends. A day you've been waiting for since you entered kindergarten those 13 long years ago.

For some of you, it's waiting to get out of school and get on with your life. It's a time when the old childhood rhyme, "No more pencils, no more books, no more teachers' dirty looks" describes just how you feel.

For many others of you, high school graduation is just the next step in your education. You're headed to a university, a community college, apprenticeship training – to the daunting task of preparing for the career you want to pursue.

But for all of you, as you return the caps and gowns you're wearing today and take your tassels and diplomas home, remember this: The diploma you receive today is your insurance policy with the premium paid in full by your hard work over the past 13 years. The value of that policy depends on how much effort you put into your education and what you do with it as you go on.

Use it. Take advantage of what it offers. Statistics show that your high school diploma is your passport to higher earnings and protection against tough economic times. It's not a guarantee, but it will always be a help.

Your diploma also represents a public education system that insures that all young people here in *(community name)* and across our nation, even the neediest, have access to the same experiences that have shaped you and me: a first rate education; an exposure to the diverse beliefs and traditions that drive an ever more interdependent and complex world, and a chance to experience the joy of learning.

Take those experiences with you. Keep close to the student and teacher friends you've made here at *(name)* High School. And do well wherever you go and in whatever you do.

You've earned your passport. Use it well. Congratulations again to each of you and may you all succeed in the years ahead.

Unequal Childhoods Annette Lareau, 2011-09-20
Class does make a difference in the lives and futures of American children. Drawing on in depth observations of black and white middle class, working class and poor families, *Unequal Childhoods* explores this fact, offering a picture of childhood today. Here are the frenetic families managing their children's hectic schedules of leisure activities, and here are families with plenty of time but little economic security. Lareau shows how middle class parents, whether black or white, engage in a process of concerted cultivation designed to draw out children's talents and skills, while working class and poor families rely on the accomplishment of natural growth in which a child's development unfolds spontaneously as long as basic comfort, food and shelter are provided. Each of these approaches to childrearing brings its own benefits and its own drawbacks. In identifying and analyzing differences between the two, Lareau demonstrates the power and limits of social class in shaping the lives of America's children. The first edition of *Unequal Childhoods* was an instant classic, portraying in riveting detail the unexpected ways in which social class influences parenting in white and African American families. A decade later, Annette Lareau has revisited the same families and interviewed the original subjects to examine the impact of social class in the transition to adulthood.

Diana's Dogs Ed Ifkovic, 2007-10
The Guinness Book of World Records calls her the best selling female singer in history. Billboard named her the Celebrity of the Century. Diana Ross, lead singer of the most popular girl group of the 1960s and later a consummate solo artist, has been in the public eye for over four decades. From 1964 when "Where Did Our Love Go" rose to number one on the pop charts to the present day, she has been the ultimate diva, an artist worshiped by fanatical fans yet pilloried in the press for her temper tantrums and untoward demands. Ed Ifkovic delivers his own spin on this international celebrity, an idiosyncratic collection of short pieces that create a portrait of the mercurial star. From a Detroit housing project to a Connecticut mansion, who is this woman who exacts such loyalty from her fans and such vitriol from her detractors? There are pieces on Diana's tantrums, true, but also jottings on the homes she's lived in, the food she eats, the cars she drives, even her role as muse for writers. There is a collection of poetic similes commentators have

employed to describe her as well as a mind boggling catalogue of garish tabloid headlines This off beat book admittedly an obsessive fan s unembarrassed send up equal parts delight and censure is a spirited yet sardonic tale that also explores the integration of black music into the white mainstream Frankly Diana led that noble charge What the author delights in is the unorthodox observation and gossipy tidbit that accompanied that revolution
