

Important aspects to be kept in mind while preparing Food Safety & Quality Manual:

- Policy: Organizations policies to be framed
- Organizations overall and departmental Quality Objectives in measurable terms to be framed
- Identifying the positions and competencies (education ,relevant experience) needed for performing the work to be documented
- Recruiting the personnel meeting the requirements as documented above
- Organization chart and roles & responsibilities to be documented
- Total layout of the plant in building to be kept including men and material movement
- Identifying each machine in plant and preparing inputs to the machine and output from the machine to be documented
- Process flow chart for manufacturing process from raw material inputs to the finished products and its storage and dispatch to be documented
- Training programs needed to the personnel as per manufacturing processes and processing of training as per these documented requirements to be ensured
- Handling of customer complaints on the products and its mechanism to be documented
- Ensure that all the requirements of the respective standard is addressed in the manual. To ensure this it is better to prepare a matrix indicating the requirements on the one side and compliance documents in the manual can be given
- Normally the following procedures will be documented irrespective of the standard being implemented.
 - Document control
