Also no proper assessment of the feasibility of sustainable alternatives to nuclear power have been carried out by the government.

5. Real Involvement: Trust in government

All the key information underpinning 'Justification' needs to be made clear in any case that is put forward for new nuclear reactors. The government is about to take a decision on the 'Justification' of more nuclear power when significant 'what if' issues that are tied to health impact - such as reactor design and siting, vulnerability to attack,
