

Judicial Branch Workflow Spreadsheet – This is not a final version but continues to be a work-in-progress.

The Judicial Branch continues to develop and improve on the “workflow” for each “event” that comes into the Trial Court System (an “event” as defined here would be a piece of paper or a document). Those “workflows” are memorialized in this spreadsheet. This is an overview of the process we have used. This spreadsheet is very wide so viewing in pdf will be difficult.

Users participated in the work groups as listed at the top of the appropriate spreadsheet columns. These various groups discussed each of the “events” and how they “typically” flow through their offices based on their county size, courthouse layout and number of employees.

A high level approach for defining what happens to a particular “event” was taken using the following terms:

Docket: Data enter information that a particular filing (event)has come to the court for processing.

Enter charge code: Data enter the state or local charge filed against someone.

Litigants: To index those persons involved in this particular case.

Copy to party that filed contempt: Send a notice to a particular party in a case.

Setup financial (if applicable): Setup the court costs/fines/fees, etc. if required.

Enter hearing date on scheduling: Schedule the case for a hearing.

Financial Setup/Receipt: Setup or receipt money for the court costs/fines/fees, etc. if required.

File away: Physically put the paper or document in the court file.

This is just a sample of those items listed in the workflow spreadsheet. Each workgroup also prioritized each event
