

The Marketing Audit - A Broad Template for you to follow.

1. Category Analysis

- What market are you operating within? Get to know it intimately!
- Size your market - this may be accurate with market data, or a best estimate. Consider growth and any relevant segmentation of the total market or category.
- Estimate market trends, such as industry developments, introduction of new technology or new products, legal factors, increased spending by competitors.
- Calculate your share of market or sub segment, and your competitors. This will help you when setting your vision, goals and objectives.
- Forecast where your market segment is moving and estimate sales and % shares for the next financial period. Ideally always plan 3 years out.

2. Target Audience

- Consider the target customer of your market segment - Identify and describe current customers.
- Identify and describe your prospect customers.
- Consider their lifestyle, demographics, interests, how they consume media etc. The more that you can know about your customer, the more targeted and therefore successful your marketing activities will be.
- Where you are really trying to get to is the wants and needs of your target customers
- In depth analysis of customers could be using free resources, but very often will need some purchased market research
