*Arsenic Exposure and Health Effects III* W.R. Chappell,C.O. Abernathy,R.L. Calderon,1999-12-06 The Society of Environmental Geochemistry and Health SEGH Third International Conference on Arsenic Exposure and Health Effects was held from July 12 15 1998 in San Diego California Several outstanding papers and posters generated lively discussion and debate not only about scientific issues but also about policy and regulatory issues While developed countries are considering spending perhaps billions of dollars per year to reach concentrations of 10 micrograms per liter or less countries like Bangladesh India and China are trying to deal with much more severe epidemic scale arsenic problems with millions of dollars or less Like its predecessors in 1994 and 1995 The Third SEGH International Conference on Arsenic Exposure and Health Effects 1998 continued the theme of global impact of arsenic In addition two new countries with significant arsenic problems Inner Mongolia and Bangladesh were represented The Bangladesh problem could be larger than the one in West Bengal with a possible two thirds of the population at risk The conference also featured a session on mechanisms of cancer carcinogenesis Several scientists presented their work on this important issue which is central to considerations of such

questions as the shape of the dose response curve at low doses This latter issue was featured in the final session of the conference Another session that was new and of great interest was on the treatment of victims of chronic arsenic poisoning This was the most dynamic conference to date and this resulting monograph represents the state of the art in arsenic research on a worldwide basis It will contribute to the solution of the many problems caused by arsenic exposure throughout the world Mineral Processing S.
