English in Non-English-Speaking Countries Marjana G. Vaneva, 2022-04-13 Living in a modern world and being surrounded by the

newest advances in technology today's English language teachers see the process of learning English as completely different compared to when they learnt it themselves. In addition, linguists today proudly witness the different usage of the language that portrays the playful nature of English supported by its creative speakers and users. This book presents a collection of English language teachers' practices and challenges of teaching English to their non-native English students in which they portray their perceptions of the teaching-learning process. These experiences will provide the reader with a perspective on what contemporary teaching of this language in a non-English speaking country looks like. As such, this collection will serve as a guidebook for new scholars in the field.

Silence in English Language Pedagogy Dat Bao, 2023-02-09

Silence in language learning is commonly viewed negatively with language teachers often struggling to interpret learner silence and identify whether it is part of communication, mental processing or low engagement. This book addresses silence in language pedagogy from a positive perspective, translating research into practice in order to inform teaching and to advocate greater use of positive silence in the classroom. The first half of the book examines the existing research into silence and the second half provides research-informed practical strategies and classroom tasks. It offers applicable principles for task design that utilises rich resources which include visual arts, mental representation, poetry, music and other innovative tools to allow both silence and speech to express their respective and interrelated roles in learning. Comprehensive yet accessible, it is essential reading for academic researchers and students in applied linguistics, TESOL and language teaching as well as for language teachers and educators.

Multi-objective Optimization: Techniques And Applications In Chemical Engineering (Second Edition) Gade Pandu Rangaiah, 2016-12-22

Optimization is now essential in the design, planning and operation of chemical and related processes. Although process optimization for multiple objectives was studied in the 1970s and 1980s, it has attracted active research in the last 15 years, spurred by the new and effective techniques for multi-objective optimization.

MOO To capture this renewed interest this monograph presents recent research in MOO techniques and applications in chemical engineering Following a brief introduction and review of MOO applications in chemical engineering since 2000 the book presents selected MOO techniques and many chemical engineering applications in detail In this second edition several chapters from the first edition have been updated one chapter is completely revised and three new chapters have been added One of the new chapters describes three MS Excel programs useful for MOO of application problems All the chapters will be of interest to researchers in MOO and or chemical engineering Several exercises are included at the end of many chapters for use by both practicing engineers and students *Business Result 2E Pre-intermediate Student's Book* Kate

Inhaltsangabe Introduction I have chosen the topic of using pop songs in the EFL classroom because I strongly believe that working with pop songs is a highly motivational device When I was a student at a lower and upper secondary school listening to songs in English classes was my favourite activity I have always wanted to be able to understand the lyrics of songs I listened to Later I realized that I have learned a lot from listening to pop songs and analyzing their lyrics Therefore in my diploma project I would like to prove that using pop songs is a highly motivational device in teaching English with instructional value and that students enjoy working with pop songs The theoretical part of this diploma project is based on relevant sources of background literature In the first two chapters the use of songs is described with regard to motivation and the Multiple Intelligences Theory The third and fourth chapter deal with the reasons for using songs and their classification In the last two chapters of the theoretical part pedagogical principles of using pop songs in class as well as the pros and cons of teaching through pop songs are presented The practical part is based on the findings of three surveys I have conducted in the field of using songs in the EFL classroom In the first part of the research I present an analysis of questionnaires which I distributed among English teachers at lower and upper secondary schools and grammar schools In the second part of the research I describe students attitudes to pop song based lessons which I taught during my teaching practice at grammar schools In the third part of the research I analyze the types of songs presented in commonly used textbooks at lower and upper secondary schools In addition I present a self developed teaching material containing a list of pop songs suitable for the EFL classroom In the last part of the practical part I answer the research questions and provide some implications for my own teaching Inhaltsverzeichnis Table of Contents ABBREVIATIONS AND DEFINITIONS ABSTRACT INTRODUCTION9 THEORETICAL PART 1 MOTIVATION10 1 1Definition of motivation10 1 2Different kinds of motivation11 1 3Motivation in second language acquisition learning vs foreign language learning12 1 4Sources of motivation
