

How to make a Wildlife Pond

You'll make a wildlife pond in your garden quite easily, whether you live in the country or in the city.

When?

The best time to you to do it is in November. Then the pond will be by the spring.

Where?

Where you put the pond is important. First, it needs to be on level ground. Secondly, it should be somewhere that is quite sunny but also with some shade.

What width?

The pond needs to have a 'leaky' that the water stays in. You can buy a flexible pond liner from a garden centre. You also need to put

it soft under the lining so it doesn't tear. You can use old newspapers if you like.

How wide?

Dig the hole for the pond. You can make it the size and shape that you want but it has to be at least feet, but stay in the middle and shallow around the edges. Clear away all the stones, put in the newspapers and the pond liner and add the water.

What about the wildlife?

It look easier you can add some plants to and around the pond. As the the animals, most of them will turn up on their own - not at once, but over time.

Words	How often?	How long?
1. garden liner weight	2. full sun, part sun	3. deep
		4. open
