,2018-01-11 *The Use of Pop Songs in the EFL Classroom* Ornerová Lenka,2011-03-09 Inhaltsangabe Introduction I have
chosen the topic of using pop songs in the EFL classroom because I strongly believe that working with pop songs is a highly
motivational device When I was a student at a lower and upper secondary school listening to songs in English classes was my
favourite activity I have always wanted to be able to understand the lyrics of songs I listened to Later I realized that I have
learned a lot from listening to pop songs and analyzing their lyrics Therefore in my diploma project I would like to prove that
using pop songs is a highly motivational device in teaching English with instructional value and that students enjoy working
with pop songs The theoretical part of this diploma project is based on relevant sources of background literature In the first
two chapters the use of songs is described with regard to motivation and the Multiple Intelligences Theory The third and
fourth chapter deal with the reasons for using songs and their classification In the last two chapters of the theoretical part
pedagogical principles of using pop songs in class as well as the pros and cons of teaching through pop songs are presented
The practical part is based on the findings of three surveys I have conducted in the field of using songs in the EFL classroom
In the first part of the research I present an analysis of questionnaires which I distributed among English teachers at lower
and upper secondary schools and grammar schools In the second part of the research I describe students attitudes to pop
song based lessons which I taught during my teaching practice at grammar schools In the third part of the research I analyze
the types of songs presented in commonly used textbooks at lower and upper secondary schools In addition I present a self
developed teaching material containing a list of pop songs suitable for the EFL classroom In the last part of the practical part
I answer the research questions and provide some implications for my own teaching Inhaltsverzeichnis Table of Contents

Solutions Tim Falla, Paul A. Davies, 2007 ELT Christoph Haase, 2011-05-25 This volume represents an outgrowth of the 7th international ATECR conference which brought together researchers and educators from fields as diverse as language teaching in a variety of contexts corpus linguistics and literary studies The contributions in this volume show despite their diversity a strong common denominator an aim to bundle efforts and unify parameters in order to optimize English Language Teaching as a world wide endeavor Thus for our teaching it can only be beneficial when linguists talk to literary minded teachers or methodology specialists investigate whether their theoretical underpinnings make their way into practice by talking to language instructors or language service providers In general the authors present a multifaceted picture of the English Language Teaching context with themselves as practitioners but also as investigators and researchers at the same time The research that reflects back on their teaching thus creates a force feedback loop not only for the investigating scholar but also for the practicing instructor who reapplies his her knowledge after failed or suboptimal attempts as evidenced by the data
