History Makers

One way to study history is to study the “big names” of the past, the people whose lives and actions shaped the times and places in which they lived. In this passage from a collection of essays, historian Barbara W. Tuchman explains why some historians focus their attention on such people.

“They are the captains and kings, saints and fanatics, traitors, rogues and villains, pathfinders and explorers, thinkers and creators, even, occasionally, heroes. They are significant—if not necessarily admirable . . . they matter. They are the actors, not the acted upon, and are consequently that much more interesting.”

—Barbara W. Tuchman, from *Practicing History: Selected Essays*

Jonathan's Journey Jayaraman Krishnan, 2018-01-02 A book that will change your imagination Murali Sunderarajan mywritingworld com This book explains the practical implication of ethics moral reasoning and how people get trapped in a cognitive tunnel Chandrasekar Chatterjee former professor at Paris Univesity He who can no longer pause to wonder and stand in awe is as good as dead his eyes are closed These words of Albert Einstein sound true of most of us Most of us are alive but are as good as dead Jonathan is not His guru the old man is not Jonathan s Journey is all about pausing to wonder about this enigmatic and ever elusive universe While science has answers Jonathan has more and more questions The answers he gets from his guru and his own research leaves him spellbound **The Teacher in the Machine** Anne Trumbore, 2025-04-22 The surprising history of education technology and its political financial and social impact on higher education and our world From AI tutors who ensure individualized instruction but cannot do math to free online courses from elite universities that were supposed to democratize higher education claims that technological innovations will transform education often fall short Yet as Anne Trumbore shows in *The Teacher in the Machine* the promises of today s cutting edge technologies aren t new Long before the excitement about the disruptive potential of generative AI powered tutors and massive open online courses scholars at Stanford MIT and the University of Illinois in the 1960s and 1970s were encouraged by the US government to experiment with computers and artificial intelligence in education Trumbore argues that the contrast between these two eras of educational technology reveals the changing role of higher education in the United States as it shifted from a public good to a private investment Writing from a unique insider s perspective and drawing on interviews with key figures historical research and case studies Trumbore traces today s disparate discussions about generative AI student loan debt and declining social trust in higher education back to their common origins at a handful of elite universities fifty years ago Arguing that those early educational experiments have resonance today Trumbore points the way to a more equitable and collaborative pedagogical future Her account offers a critical lens on the history of technology in education just as universities and students seek a stronger hand in shaping the future of their institutions [The Realities of 'Reality' - Part II: Making Sense of Why Modern Science Advances \(Volume 2 of 2\)](#) Fritz Dufour, MBA, DESS, 2019-03-23 The difference between Part I and Part II Volumes 1 2 of this series is that in Part I the author showed how what we call reality starts with the inner self whereas Part II describes what in fact impacts and modifies the environment or reality and what are the factors behind that dynamics What impacts and modifies the environment is science This Volume 2 starts by showing how technology plays an important role in scientific progress Although the relationship between the two is symbiotic science can exist without technology but technology desperately needs science Military technology is an example of how technology can help science advance Some military inventions end up having civilian use Science being at the center of society the book makes the case for the direct impact of such social sciences as politics and economics on the advancement of science Politics

says the author influences science because of uncertainty in science and economics does it thanks to the availability of money to scholars and scientists for their research On the other hand government also influences scientific progress through regulations The book gives cyberspace regulation as an example Furthermore by showing how art influences science the author really argues for the polyfactorial aspect of scientific progress In that line of thought he goes on to also prove that factors such as skepticism curiosity and the quest for knowledge greatly influence the advancement of science That says the author is a ninety degree turn By ending Part two that way I wanted to somehow link it to Part I which argues that reality starts from within

Man of Seven Shadows Richard Theodor Kusiolek,2020-08-06 It is an ancient time on Earth The Korka Clan led by a giant man are generational members of the Stone Age tribe Tiger Claw As they begin a historical journey through seven portals of time the clan has no idea of the challenges that lie ahead As members of the Korka Clan obtain their warrior credentials through battles with the Mongols in 1237 their village is burned to the ground by the Mongol hordes Over the next seven centuries the Korka Clan must endure forced migration and slave labor while working communal agricultural lands After they eventually resist the clan becomes foundational pillars of kingship Through the brutality of their historical roots the family becomes immersed in rebellions against economic and religious exploitation while engaging in military espionage to gain economic and political security As their journey leads them onward the Korka Clan influence the outcome of battles that ultimately guide future generations into the country of Ukraine and Washington D C to neutralize the existing Deep State

Fifth World Medicine Dr. John C. Hughes,2022-05-25 What begins as a hunger for authentic medicine in a young medical student evolves into a quest for an entirely new world a Fifth World where the line between what is material and spiritual has been dissolved In Fifth World Medicine you will explore the lands myths and prophecies of the Hopi People chase after coyotes in the deserts of Arizona enter a sweat lodge with a shamanic healer in the far North Country of Canada embrace the power of silence and the medicine of enlightenment go on a vision quest in the depths of the Grand Canyon and find your roots in the sacred temple of the human body and the soil of Mother Earth Fifth World Medicine dares to challenge Westerners and anyone who dwells in the Fourth World a techno industrial world where dualistic thinking and linear scientific methodologies assert their hegemony leading to disease in Mother Earth and her inhabitants Fifth World Medicine provides an exit path for those who hunger for something more than the Fourth World Fifth World Medicine satisfies humanity s deep collective hunger for lasting health as it integrates one s spirit mind body and Earth If you feel this hunger follow the wolf on this journey to the Fifth World a journey guaranteed to test your worldview and entire understanding of what is true

Primates Alfred L. Rosenberger,2023-08-28 This book is an accessible and comprehensive introduction to primates It provides both a survey and synthesis of primate history biology and behavior As a survey it offers a focused review of living and extinct primates in regional and community frameworks As a synthesis it applies the community perspective in a unique way to explore primates adaptive diversity in the context of how evolution works The

book encourages students to study primates as integrated members of regional communities ecologically historically and evolutionarily The chapters are organized to emphasize the patterns of primate radiations in the four regions of the world where primates live and to facilitate comparisons among the radiations The overviews of communities illustrate how the ecological adaptations of different species and taxonomic or phylogenetic groups enable them to coexist Illustrations and tools to aid students learning include case studies photographs figures tables charts key concepts and quizlets to self test This book is an ideal introduction for students studying nonhuman primates primatology primate behavior or primate ecology

White Privilege: Fact or Fiction Meru El Muad'Dib, 2019-06-06 A sobering look at a very controversial topic Is white privilege real This book is not an angry attack but a very critical look at a significant topic *Documentary Film Making on Tribal in India* Dr. Harendra Pratap Singh Chouhan, 2022-10-26 Scripture Versus Science : Reconciling God's Ancient Wisdom with a Modern World View Robert D. Harter, PhD, 2015-07-12 With trepidation Dr Robert D Harter approached the subject of Earth origins and human development from the position of a lifelong Christian who is also a scientist He grew up in a rural Ohio Christian family and thoroughly understands the position of those who believe the Earth and everything in it was created a few thousand years ago At the same time he is a university professor who understands the basis upon which the Earth is claimed to be millions of years old Both positions cannot be correct and it is probable that neither is completely wrong Using a scientist's analytical approach Dr Harter evaluated and compared biblical anthropological and geological records In Scripture Versus Science he proposes a resolution to the increasingly heated argument about evolution While unlikely to provide a clear and definitive answer this book begins to thin the fog that has developed around it He states There has been a lot of fog associated with whether God created the universe and everything in it or whether it just happened by chance In writing this book I attempt to show that the ideas supporting the two views are not necessarily mutually exclusive In other words I hope I have allowed a bit of sun to shine through the fog Les réalités de la 'réalité' - deuxième partie: Vers une compréhension des facteurs responsables des progrès de la science moderne (Volume 2) Fritz Dufour, MBA' DÉSS, 2019-03-23 La différence entre la première partie et la deuxième partie volumes 1 et 2 de cette série est que dans la première partie l'auteur a montré comment ce que nous appelons la réalité commence avec le moi intérieur alors que la deuxième partie décrit ce qui en réalité affecte et modifie l'environnement ou la réalité et quels sont les facteurs derrière cette dynamique Ce qui impacte et modifie l'environnement c'est la science Ce volume 2 commence par montrer comment la technologie joue un rôle important dans les progrès scientifiques Bien que la relation entre les deux soit symbiotique la science peut exister sans technologie mais la technologie a de surcroît besoin de la science La technologie militaire est un exemple de la manière dont la technologie peut faire progresser la science Certaines inventions militaires finissent par avoir un usage civil La science tant au centre de la société le livre plaide en faveur de l'impact direct de sciences sociales telles que la politique et l'économie sur le progrès de la science La politique dit l'auteur influence la science en raison de l'incertitude de la science et l'

conomie le fait gr ce la disponibilit de fonds pour les chercheurs et les scientifiques D autre part le gouvernement influence galement le progr s scientifique par le biais de r glementations Le livre donne comme exemple la r gulation du cyberespace En outre en montrant comment l art influence la science l auteur plaide en faveur de l aspect polyfactoriel du progr s scientifique Dans cette optique il prouve galement que des facteurs tels que le scepticisme la curiosit et la qu te du savoir influencent grandement le progr s de la science Cela dit l auteur est un virage 90 degr s En terminant la partie deux de cette fa on je voulais d une mani re ou d une autre la relier la premi re partie qui affirme que la r alit commence de l int rieur
