

Unit 2: Networks of Exchange Exam Study Guide

C. 1200 - c. 1450

Topic 2.1 Silk Roads

Learning Objective

Explain the causes and effects of growth of networks of exchange after 1200.

Historical Developments

Improved commercial practices led to an increased volume of trade and expanded the geographical range of existing trade routes—including the **Silk Roads**—promoting the growth of powerful new trading cities.

Trading cities:

- Kashgar
- Samarkand

The growth of interregional trade in **luxury goods** was encouraged by innovations in previously existing transportation and commercial technologies, including the **caravanserai**, forms of **credit**, and the development of **money economies**.

New forms of credit and money economies:

- Bills of exchange
- Banking houses
- Use of paper money

Demand for luxury goods increased in AfroEurasia. Chinese, Persian, and Indian artisans and merchants expanded their production of textiles and **porcelain** for export; manufacture of iron and steel expanded in China.

1. Explain the various factors that led to the growth of the Silk Road trade networks in the 1200 - 1450 time period:

The spread of Islam, increased demand for specialized products, knowledge of the environment there, and advances in marine technology

2. What luxury goods were often traded along the Silk Roads?

Porcelain, gold, and ivory

3. What transportation technologies facilitated trade along the Silk Roads?

yokes, saddles, and stirrups

4. What commercial technology facilitated trade along the Silk Roads?

magnetic compass, gunpowder and paper

Topic 2.2 The Mongol Empire and the Making of the Modern World

Learning Objective

Explain the process of state building and decline in Eurasia over time.

Historical Developments

Empires collapsed in different regions of the world and in some areas were replaced by new imperial states, including the **Mongol Khanates**.

5. Explain how the Mongol Khanates developed:

Following the death of Möngke Khan, the 4 Khanates developed due to a lack of a declared successor. Many of his kin declared themselves the Great Khan and none were widely accepted, so they split into 4 khanates. The lack of a strong unifying leader caused the Mongols to lose some of their power as they were no longer the great force

McDougal Littell World History: Patterns of Interaction McDougal Littell, 1998-11 **World History** Elisabeth Gaynor Ellis, Anthony Esler, 2014 **The Great Unbundling** J. Y. Sterling, 2025-07-04

For hundreds of thousands of years the story of human success was the story of a unique and powerful package. In what this groundbreaking book calls the era of the Bundled Ape, our ancestors dominated the planet by combining analytical intelligence, emotional connection, and physical dexterity within a single vessel: the individual human. Our societies, economies, and even our myths were built on the assumption that the person with the idea is also the one who feels the passion, directs the hands, and experiences the consequences. Now that bundle is coming apart. In *The Great Unbundling*, the author presents a stunning new thesis for understanding our turbulent times. The true disruption of artificial intelligence is not that it's a new tool, but that it is the engine of a historical process that is systematically isolating each of our core functions, improving them beyond human capacity and rendering the original human package obsolete. This unbundling is being driven at a breakneck pace by the relentless profit-seeking engine of modern capitalism, which sees in AI the ultimate instrument for maximizing efficiency. The evidence is everywhere. The Unbundling of Labor: Generative AI is poised to automate or degrade the work of 300 million full-time employees, striking at the heart of the knowledge economy from law and finance to journalism and medicine. The Unbundling of Intelligence: For the first time, raw problem-solving capability is being divorced from conscious understanding. An AI can pass the medical licensing exams without knowing what it means to heal or ace the bar exam without a concept of justice, forcing us to ask what expertise truly means. The Unbundling of Connection: In an age of profound loneliness, AI is stepping in to meet our most fundamental needs. With AI companions, parasocial relationships, and algorithmically curated communities, emotional fulfillment is being unbundled from the messy, unpredictable, and deeply rewarding work of human-to-human connection. What happens to a species whose core evolutionary advantage has been deconstructed and outsourced? What is the economic value of a human being in a world where our bundled skills are no longer competitive? This leads to the crisis of humanism itself and forces us to consider radical solutions like Universal Basic Income not as a political choice but as a potential civilizational necessity in the face of a useless class. But this is not another prophecy of doom. The unbundling is not an endpoint but a turning point. *The Great Unbundling* is the first book to chart the powerful counter-current that is rising in response. *The Great Rebundling*: This is the story of the conscious human effort to forge a new purpose. From the new artisans who are building thriving businesses on the very integrated, authentic human skills that AI cannot replicate to the political movements and policymakers fighting to subordinate this new technology to human values, a new path is being forged. *The Great Unbundling* is a profound, deeply researched, and ultimately hopeful guide to the most important transition of our lifetime. It provides the essential framework for understanding the forces reshaping our world and offers a stirring

vision for how we can actively create our future This provocative and insightful work argues that we are at a civilizational crossroads We can either passively accept our unbundling or begin the conscious creative and difficult work of forging a new human purpose Essential reading for aficionados of Yuval Noah Harari Nick Bostrom and Kai Fu Lee The Great Unbundling is sure to spark debate and will forever change how you think about the future of humanity [Catalog of Copyright Entries, Third Series](#) Library of Congress.
