Department of the Army, 1957      Historia Ludens Alexander von Lünen, Katherine J. Lewis, Benjamin Litherland, Pat Cullum, 2019-08-30 This book aims to further a debate about aspects of playing and gaming in connection with history Reaching out to academics professionals and students alike it pursues a dedicated interdisciplinary approach Rather than only focusing on how professionals could learn from academics in history the book also ponders the question of what academics can learn from gaming and playing for their own practice such as gamification for teaching or using play as a paradigm for novel approaches into historical scholarship Playing and gaming are thus understood as a broad cultural phenomenon that cross pollinates the theory and practice of history and gaming alike      Approach , 1985 The naval aviation safety review      *The English Catalogue of Books Published from January, 1835, to January, 1863* , 1864      *Medical Record* George Frederick Shrady, Thomas Lathrop Stedman, 1919      Hastings International and Comparative Law Review , 2001      *War* Bertrand Taithe, Tim Thornton, 1998 A collection of essays addressing the concepts of warfare and identity from the fourteen century to modern times which looks at how war has affected national individual professional and ideological identities In the THEMES IN HISTORY series      Biowarrior Igor' Valerianovich Domaradskii, Wendy Orent, 2003 This extraordinary memoir by a leading Russian scientist who worked for decades at the nerve center of the top secret Biopreparat offers a chilling look into the biological weapons program of the former Soviet Union vestiges of which still exist today in the Russian Federal Republic Igor Domaradskij calls himself an inconvenient man a dedicated scientist but a nonconformist who was often in conflict with government and military apparatchiks In this book he reveals the deadly nature of the research he participated in for almost fifteen years Domaradskij goes into great detail about the secrecy intrigue and the bureaucratic maze that enveloped the Biopreparat scientists making them feel like helpless pawns What stands out in his account is the hasty patchwork nature of the Soviet effort in bioweaponry Far from being a smooth running terrifying monolith this was an enterprise cobbled together out of the conflicts and contretemps of squabbling party bureaucrats military know nothings and restless ambitious scientists In some ways the inefficiency and lack of accountability in this system make it all the more frightening as a worldwide threat

For today its dimensions are still not fully known nor is it certain that any one group is completely in control of the proliferation of this lethal weaponry Biowarrior is disturbing but necessary reading for anyone wishing to understand the nature and dimensions of the biological threat in an era of international terrorism **Technical Book Review Index** ,1945
