at meso level based on three questions a what topics do people in the diaspora communities discuss in relation to their homelands via social media an alternative for tmc b how do they communicate about their homelands issues in relation to their collective identities and c how does this communication enable the construction of their own identity as well as the deconstruction of competing identities The theoretical analysis from the perspective of these questions led to developing own model i e the Diasporic Identity Construction in Transnational Masspersonal Communication Model DICTMCM This model which connects the theoretical analysis to the empirical study argues that their communication in relation to their homelands particularly about their collective identities consists not only of what they talk but also of how they converse As a result the empirical results delivered a comparative analysis of the tmc of these four diaspora communities and how they construct their collective identities via this tmc which bridged the above stated gap

Eurasian Empires as Blueprints for Ethiopia Asnake Kefale,Tomasz Kamusella,Christophe Van der Beken,2021-02-17 This book is a contribution to the global history of the transfer of political ideas as exemplified by the case of modern Ethiopia Like many non European nation states Ethiopia adopted a western model of statehood that is the nation state Unlike the postcolonial polities that have retained the mode of statehood imposed on them by their colonial powers Ethiopia was never successfully colonized leaving its ruling elite free to select a model of modern western statehood In 1931 via Japan they adopted the model of unitary ethnolinguistically homogenous nation state in turn copied by Tokyo in 1889 from the German Empire founded in 1871 Following the Ethiopian Revolution 1974 that overthrew the imperial system the new revolutionary elite promised to address the nationality question through the marxist leninist model The Soviet model of ethnolinguistic federalism originally derived from Austria Hungary was introduced in Ethiopia first in 1992 and officially with the 1995 Constitution To this day the politics of modern Ethiopia is marked by the tension between these two opposed models of the essentially central European type of statehood The late 19th century German German quarrel on the proper model of national statehood for Germany or more broadly modern central Europe remains the quarrel of Ethiopian politics nowadays The book will be useful for scholars of Ethiopian and African history and politics and also offers a case in

comparative studies on the subject of different models of national statehood elsewhere
