## **Some Notes On Java And Its Administration By The Dutch:**

**Some Notes on Java and Its Administration by the Dutch** Henry Scott Boys, 1892 This modestly entitled work by a former member of the Bengal Civil Service is in fact more like a well researched essay than a miscellaneous collection of notes It pays considerable attention to Java's history though its coverage is rather patchy by modern standards and many names are mis spelled It has a few interesting insights on the situation at the time of the author's visit 1889 such as the prosperous appearance of the Javanese especially the children the domination of trade by women and the absence of any sign of Islam But its main interest is the author's favorable opinion of the economic management of Java by the Dutch as compared with the British in India He particularly commends the Dutch refusal to introduce individual property rights to land He does predict however correctly that the growth of Java's population will lead to economic problems in the future He is also unusual among British colonial administrators of the 19th century in suggesting that the Western way of doing things is not invariably the best one

**The Economic Position of the United Kingdom: 1912-1918** William Andrew Paton, 1919     **History of Holland**, 1976     *'Greater India' and the Indian Expansionist Imagination, c. 1885-1965* Jolita Zabarskaitė, 2022-11-07 This book is the first systematic study of the genealogy discursive structures and political implications of the concept of Greater India implying a Hindu colonization of Southeast Asia and used by extension to argue for a past Indian greatness as a colonial power reproducible in the present and future From the 1880s to the 1960s protagonists of the Greater India theme attempted to make a case for the importance of an expansionist Indian civilisation in civilizing Southeast Asia The argument was extended to include Central Asia Africa North and South America and other regions where Indian migrants were to be found The advocates of this Indocentric and Hindu revivalist approach with Hindu and Indian often taken to be synonymous were involved in a quintessentially parochial project despite its apparently international dimensions to justify an Indian expansionist imagination that viewed India's past as a colonizer and civilizer of other lands as a model for the restoration of that past greatness in the future Zabarskaite shows that the crucial ideologues and elements used for the formation of the construct of Greater India can be traced to the svade movement of the turn of the century and that Greater India moved easily between the domains of the scholarly and the popular as it sought to establish itself as a form of nationalist self assertion     Unveiling Indonesia Library of Congress, 1996
