

THE IMPOSSIBLE CRIMES SERIES

A close-up of a woman's face, looking intensely at the viewer. Her right hand is raised to her eye, with blood smeared on her fingers and cheek. The background is dark and textured.

THE IMPOSSIBLE ROOM

A dark, industrial-looking building at night with three windows glowing from within. The scene is dimly lit, with some light reflecting off the ground.

Translation across Time and Space Wafa Abu Hatab, 2017-01-06 This book investigates several aspects of translation including literary political legal and machine translation and it covers a diversity of languages including Arabic English French and Greek With the whole world becoming a global village translation has acquired a remarkable dynamicity that encapsulates time and space bridging gaps between cultures despite all geographical boundaries Contributions to this collection cross various spaces including Jordan Greece Egypt Malaysia Romania and the United Arab Emirates This volume provides researchers interested in translation studies with detailed insight into translation as a product and a process The pedagogical implications of some of the chapters are expected to trigger future work on translators training in all types of translation

Space 1999 and Science Fiction Prototyping Petter Ogland, 2018-06-25 With the first online discussions of SPACE 1999 starting in January 1993 this book celebrates the 25th anniversary of Online Alpha It is edited and told from the perspective of trying to present different types of discussions over the years by focusing on humour insight surprise and shared community There is also a focus on how the discussions have changed and how they continue to change The book is written on an idealistic basis It is sold at the lowest price the publisher was willing to accept A free e book version can be downloaded at www.lulu.com

Space and Place in Children's Literature, 1789 to the Present Maria Sachiko Cecire, Hannah Field, Malini Roy, 2016-03-09 Focusing on questions of space and locale in children's literature this collection explores how metaphorical and physical space can create landscapes of power knowledge and identity in texts from the early nineteenth century to the present The collection is comprised of four sections that take up the space between children and adults the representation of real world places fantasy travel and locales and the physical space of the children's book as object In their essays the contributors analyze works from a range of sources and traditions by authors such as Sylvia Plath Maria Edgeworth Gloria Anzald a Jenny Robson C S Lewis Elizabeth Knox and Claude Ponti While maintaining a focus on how location and spatiality aid in defining the child's relationship to the world the essays also address themes of borders displacement diaspora exile fantasy gender history home leaving and homecoming hybridity mapping and metatextuality With an epilogue by Philip Pullman in which he discusses his own relationship to image and locale this collection is also a valuable resource for understanding the work of this celebrated author of children's literature

Place, Space and Hermeneutics Bruce B. Janz, 2017-03-29 This book analyzes the hermeneutics of place raising questions about central issues such as textuality dialogue and play It discusses the central figures in the development of hermeneutics and place and surveys disciplines and areas in which a hermeneutic approach to place has been fruitful It covers the range of philosophical hermeneutic theory both within philosophy itself as well as from other disciplines In doing so the volume reflects the state of theorization on these issues and also looks forward to the implications and opportunities that exist Philosophical hermeneutics has fundamentally altered philosophy's approach to place Issues such as how we dwell in place how place is

imagined created preserved and lost and how philosophy itself exists in place have become central While there is much research applying hermeneutics to place there is little which both reflects on that heritage and critically analyzes a hermeneutic approach to place This book fills that void by offering a sustained analysis of the central elements major figures and disciplinary applications of hermeneutics and place *Wisconsin Library Bulletin* ,1905 **Space 1999 and Critical Theory** John K. Balor,2017-11-11 The television series SPACE 1999 was in its first series shaped by the late sixties and early seventies counterculture movements making SPACE 1999 into an example of how certain SF scholars see a natural alignment between science fiction and critical theory However due to changes in the political climate SPACE 1999 went through an ideological reversal in its second series As a result the schizophrenic nature of the series has ever since caused debate This book is written on an idealistic basis It is sold at the lowest price the publisher was willing to accept A free e book version can be downloaded at www.lulu.com **Theater of Essence** Jan Kott,1984 The sixteen essays collected in The Theater of Essence define the point of view of one of the most influential theater critics of our time Jan Kott s subjects extend from Tadeusz Borowski Ibsen Ionesco and Gogol to Bunraku theater in Japan Yiddish theater in New York and Grotowski s theater in Poland **Living Law** Sandro Chignola,2027-07-12 This book offers a radical new understanding of law beyond the confines of its formalization by the state The book takes off from the late work of Gilles Deleuze and Michel Foucault for whom law and its institutions came to be liberated from an ideological perspective that had treated them as sterile instruments for the reproduction of domination Engaging its continental history it addresses the concept of law not merely as a command but as the result of a much more complex legal operation aimed at dynamically stabilizing the social relations of a community The book thus sidesteps the usual legal political focus on those from Hobbes to Schmitt who have contributed to the categorical scheme of the modern state and with it questions of political representation sovereignty the rigid distinction between public law and private law and so on as it pursues an alternative theoretical trajectory through Ravaissou Tarde and Hauriou Politics the book maintains can be no longer be treated simply through the state form And relatedly the law must be seen as a living law a law that cannot be treated exclusively in formal terms but must be taken as a grammar capable of articulating a politics of process relationality and innovation Reconceived as such law can then circumvent the aporias that arise when society is viewed as a private company and the state seen as the bearer of the only possible means of formalizing its relationships At the intersection of law and political theory this book will speak to scholars and others with interests in both these areas and especially those concerned with the limits of both conventional and critical approaches to law **The Christian Observer** ,1813 **Cassell's Magazine** ,1898 *Neuronal Bases And Psychological Aspects Of Consciousness - Proceedings Of The International School Of Biocybernetics* Cloe Taddei-ferretti,C Musio,1999-05-14 For a few decades the puzzle of consciousness which for centuries was analysed by philosophers has been finding a wide interest in the scientific field where previously it was not entitled to be a member It has become one of the most debated problems in the cognitive

sciences The anatomical bases neurophysiological correlates and elementary mechanisms underlying complex processes arising with consciousness have been compared with the psychological perceptive cognitive volitive emotional aspects of conscious expressions in normal and pathological conditions Various theories which attempt to fit systematically and coherently neural and psychological data have been debated proving the emergence of the phenomenon of consciousness
