History Textbooks and the Wars in Asia Gi-Wook Shin,Daniel C. Snider,2011-02-08 Over the past fifteen years Northeast Asia has witnessed growing intraregional exchanges and interactions especially in the realms of culture and economy Still the region cannot escape from the burden of history This book examines the formation of historical memory in four Northeast Asian societies China Japan South Korea and Taiwan and the United States focusing on the period from the beginning of the Sino Japanese war in 1931 until the formal conclusion of the Pacific War with the San Francisco Peace Treaty of 1951 The contributors analyse the recent efforts of Korean Japanese and Chinese scholars to write a common history of Northeast Asia and question the underlying motivations for their efforts and subsequent achievements In doing so they contend that the greatest obstacle to reconciliation in Northeast Asia lies in the existence of divided and often conflicting historical memories

The book argues that a more fruitful approach lies in understanding how historical memory has evolved in each country and been incorporated into respective master narratives Through uncovering the existence of different master narratives it is hoped citizens will develop a more self critical self reflective approach to their own history and that such an introspective effort has the potential to lay the foundation for greater self and mutual understanding and eventual historical reconciliation in the region This book will be essential reading for students and scholars of Asian history Asian education and international relations in East Asia

The Earliest China Hong Xu, 2021-11-09 The Earliest China is the first archaeological book in China to translate in the dominant language of the world on the origin of Chinese ancient civilization in the Central Plains and the study of Xia dynastic culture It shows readers all over the world the outstanding achievements in the study of the formation of early state in China and is the first English translation monograph on the birth history of the first dynasty of Hua Xia nation from the perspective of archaeology With the specific archaeological data on the basis of excavations and investigation conducted in recent years this book focuses on the interpretation of the rise and development of the ancient civilization having initially appeared in the Central Plain of China and even in the Eastern Asia The book contents include abundant manifestations of the first flourishing civilization especially at the Erlitou site along the Yi and Luo Rivers characteristic of ultra large capital city palace buildings elaborate bronze vessels and stratified social organization With the combination of previously literature the original author attempts to further explain how the earliest China a royal powered and large scaled state emerged four thousand years ago In this book the analysis on a comprehensive landscape of the ancient civilization prior to the Shang Dynasty leads the point of views distinctively from the traditional historical perspectives With a global perspective he further compares with other significant civilizations in the world and also points out cultural communications between the early China and other external cultures in the Bronze Age Therefore this book the Earliest China of English translated version is so

appropriate to be recommended to foreign scholars and sinologists as well as everyone who has been attracted by China's charm overseas. With book contents, ideas and thoughts that it contains, one can easily acknowledge the goals, methods and reconstruction process of China's prehistory so English readers will acknowledge so well about the Chinese Archaeology in the Bronze Age which does vary in many aspects from that of European and American.

The Global Human Resource Management Casebook Liza Castro Christiansen, Michal Biron, Pawan Budhwar, Brian Harney, 2023-09-12 The third edition of *The Global Human Resource Management Casebook* provides a wide range of international teaching cases exploring contemporary human resource management (HRM) challenges. Each case focuses primarily on one country and illustrates a critical HRM issue confronting managers and HRM practitioners. This real world application provides students of HRM with a unique opportunity to examine how key HRM theories and ideas translate into practice. The case studies emphasize the national and cultural contexts of HRM providing readers with a global understanding of HRM practices like recruitment, reward systems, diversity and inclusion as well as recent developments including the impact of the COVID-19 pandemic, remote working, sustainability and digital transformation. In this edition, the editors and authors have made significant updates to reflect recent developments in the field and cover a broader range of countries. The authors also delve into new industries including consulting, energy, healthcare, IT and education. With 31 international cases followed by further reading and learning resources, this extensive collection is an invaluable resource for any student seeking to explore contemporary HRM on a global basis.

World Civilizations Peter N. Stearns, 1999-10 The primary goal of *World Civilizations: The Global Experience* Third Edition is to present a truly global history, one that both discusses the development of the world's leading civilizations and also emphasizes the major stages in the interactions among different peoples and societies. The book examines all the world's civilizations including those in the Western tradition but also those civilizations sometimes neglected in world history texts, for example, the nomadic societies of Asia, Latin America and the nations and states of the Pacific Rim. *World Civilizations* balances this discussion of independent developments in all the world's major civilizations with comparative analysis of the results of international contact.

MARKET Appropriate for anyone interested in World History.

Digital Terrain Analysis, Third Edition Igor Florinsky, 2025-01-10 *Digital Terrain Analysis* Third Edition synthesizes knowledge on methods and applications of digital terrain analysis and geomorphometry in the context of multi-scale problems in soil science, geology and polar research. Divided into four parts, the book examines the main concepts, principles and methods of digital terrain modeling, methods for analysis, modeling and mapping of spatial distribution of soil properties, techniques for recognition, analysis and interpretation of topographically manifested geological features and finally polar research. This new release provides a theoretical and methodological basis for understanding and applying geographical modeling techniques. Presents an integrated and unified view of digital terrain analysis in both soil science and geology. Includes a rigorous description of the mathematical principles of digital terrain analysis. Provides both a theoretical and

methodological basis for understanding and applying geographical modeling Contain a new section on Digital Terrain Modeling in polar research as well as updated information methods and figures from previous editions **The Global Experience: Readings in world history to 1550** Philip F. Riley, 2002 **Goat Medicine** Mary C. Smith, David M.
