Popp,2012-05-16 In mid twentieth century America mass tourism became emblematic of the expanding horizons associated with an affluent industrial society Nowhere was the image of leisurely travel more visible than in the parade of glossy articles and advertisements that beckoned readers from the pages of popular magazines In Richard K Popp s *The Holiday Makers* the magazine industry serves as a window into postwar media and consumer society showing how the dynamics of market research and commercial print culture helped shape ideas about place mobility and leisure Magazine publishers saw travel content as a way to connect audiences to a booming ad sector while middlebrow editors believed sightseeing travel was a means of fostering a classless society at home and harmony abroad Expanding transportation networks and free time lay at the heart of this idealized vision Holiday magazine heralded nothing less than the dawn of a new era calling it the age of Mobile Man Man gifted for the first time in history with leisure and the means to enjoy distance on a global scale For their part advertisers understood that selling tourism meant turning dreams into action as ad executive David Ogilvy put it Doing so involved everything from countering ugly stereotypes to tapping into desires for authentic places and self actualization Though tourism was publicly touted in egalitarian terms publishers and advertisers privately came to see it as an easy way to segment the elite free spenders from the penny pinching masses Just as importantly marketers identified correlations between an interest in travel and other consumer behavior

Ultimately Popp contends the selling of tourism in postwar America played an early integral role in the shift toward lifestyle marketing an experiential service economy and contributed to escalating levels of social inequality

The Decisive Network Nadya Bair, 2020 Since its founding in 1947 the legendary Magnum Photos agency has been telling its own story Its photographers were concerned witnesses to history and artists on the hunt for decisive moments their pictures were humanist documents of the postwar world Based in unprecedented archival research The Decisive Network peels back layers of the Magnum mythology to offer a new history of what it meant to shoot edit and sell news images after World War II Between the 1940s and 1960s Magnum expanded the human interest story about the everyday life of ordinary people to global dimensions while bringing the aesthetic of news pictures into new markets Its best known work started as humanitarian aid promotion travel campaigns corporate publicity and advertising Working with this range of clients Magnum made photojournalism integral to visual culture Yet Magnum s photographers could not have done this alone This book unpacks the collaborative nature of photojournalism as it transpired on a daily basis focusing on how picture editors sales agents spouses and publishers helped Magnum photographers succeed in their assignments and achieve fame The Decisive Network concludes in the late 1960s and early 1970s when amidst the decline of magazine publishing and the rise of an art market for photography Magnum turned to photo books and exhibitions to manage its growing picture archives and consolidate its brand In that moment Magnum s photojournalists became artists and their assignments turned into oeuvres Such ideas were necessary publicity and they also managed to shape discussions about photography for decades Bridging art history media studies cultural history and the history of communication this book transforms our understanding of the photographic profession and the global circulation of images in the pre digital world

BBC Commercial Operations Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2009 This report investigates the governance of the BBC s commercial arm BBC Worldwide the activities of BBC Worldwide including programme sales production magazines and websites BBC Worldwide s acquisition of Lonely Planet and the possible partnership between BBC Worldwide and Channel 4 There are major benefits from the BBC undertaking commercial activities the profits generated by the exploitation of the BBC s intellectual property can be reinvested in the BBC s public services to the benefit of licence fee payers But the manner in which some of the BBC s commercial revenue is generated and the governance arrangements within which the BBC Worldwide operates causes increasing concern Worldwide has proved successful in recent years in exploiting new commercial opportunities made possible by a loosening of the rules that govern the limits to its operations However there a balance to be drawn between Worldwide generating a return for the BBC and limiting Worldwide s operations in order to ensure it upholds the BBC s reputation and does not damage its commercial competitors Worldwide s minority stakes in overseas production companies its controversial acquisition of Lonely Planet and its growing portfolio of magazines suggest that the balance has been tipped too far in favour of Worldwide s unrestricted expansion jeopardising the

reputation of the BBC and having an adverse impact on its commercial competitors It is in the interests of the UK's creative economy as a whole that BBC Worldwide's activities are reined back The BBC Trust should reinstate the rule that all BBC commercial activity must have a clear link with core BBC programming
