War Police And Assemblages Of Intervention Interventions:

War, Police and Assemblages of Intervention Jan Bachmann, Colleen Bell, Caroline Holmqvist, 2014-11-13 This book reflects on the way in which war and police policing intersect in contemporary Western led interventions in the global South. The volume combines empirically oriented work with ground breaking theoretical insights and aims to collect for the first time thoughts on how war and policing converge, amalgamate, diffuse and dissolve in the context both of actual international intervention and in understandings thereof. The book uses the caption WAR POLICE to highlight the distinctiveness of this volume in presenting a variety of approaches that share a concern for the assemblage of war police as a whole. The volume thus serves to bring together critical perspectives on liberal interventionism where the logics of war and police policing blur and bleed into a complex assemblage of WAR POLICE. Contributions to this volume offer an understanding of police as a technique of ordering and collectively take issue with accounts of the character of contemporary war that argue that war is simply reduced to policing. In contrast, the contributions show how both historically and conceptually the two are always already connected. Contributions to this volume come from a variety of disciplines including international relations, war studies, geography, anthropology and law, but share a critical poststructuralist approach to the study of international intervention, war and policing. This volume will be useful to students and scholars who have an interest in social theories on intervention, war, security and the making of international order.

Reforming 21st Century Peacekeeping Operations

Marc. G. Doucet, 2017-07-06 This book considers contemporary international interventions with a specific focus on analyzing the frameworks that have guided recent peacekeeping operations led by the United Nations. Drawing from the work of Michel Foucault and Foucauldian inspired approaches in the field of International Relations, it highlights how interventions can be viewed through the lens of governmentality and its key attendant concepts. The book draws from these approaches in order to explore how international interventions are increasingly informed by governmental rationalities of security and policing. Two specific cases are examined: the UN's Security Sector Reform (SSR) approach and the UN's Protection of Civilians agenda. Focusing on the governmental rationalities that are at work in these two central frameworks that have come to guide contemporary UN led peacekeeping efforts in recent years, the book considers the use in IR of governmentality and its attendant notions of biopower and sovereign power. The recent discussion regarding the concept and practice of international policing and police reform, the rise of security as a rationality of government and the manner in which security and police rationalities interconnect and have increasingly come to inform peacekeeping efforts, the Security Sector Reform (SSR) framework for peacebuilding and the rise of the UN's Protection of Civilians agenda. This book will be of interest to graduates and scholars of international relations, security studies, critical theory and conflict and intervention.

Civil-Military

Relations in International Interventions Karsten Friis, 2020-02-13 This book examines military and civilian actors in international interventions and offers a new analytical framework to apply on such interventions. While it is frequently

claimed that success in international interventions hinges largely on military civilian coherence cooperation has proven challenging to achieve in practice This book examines why this is the case by analysing various approaches employed by military and civilian actors and discussing the different relationships between the intervening actors and those upon whom they have intervened The work analyses different military concepts such as peacekeeping and counterinsurgency and the often troubled relationship between the humanitarian and military intervening actors It presents a new analytical framework to examine these relationships based on identification theory which illuminates how the interveners represent those they have been deployed to engage as well as their own identity and role As such the book offers an enhanced understanding of the challenges related to civil military cooperation in international interventions as well as a theoretical contribution to the study of interventions more generally This book will be of much interest to students of international interventions military studies peacekeeping security studies and International Relations The War on the Social Factory Annie

War-Making as Worldmaking Samar Al-Bulushi, 2024-11-12 Since Kenya's invasion of Somalia in 2011 the Kenyan state has been engaged in direct combat with the Somali militant group Al Shabaab conducting airstrikes in southern Somalia and deploying heavy handed police tactics at home As the hunt for suspects has expanded within Kenya Kenyan Muslims have been subject to disappearances and extrajudicial killings at the hands of U S trained Kenyan police War Making as Worldmaking explores the entanglement of militarism imperialism and liberal democratic governance in East Africa today Samar Al Bulushi argues that Kenya's emergence as a key player in the War on Terror is closely linked but not reducible to the U S military's growing proclivity to outsource the labor of war Attending to the cultural politics of security Al Bulushi illustrates that the war against Al Shabaab has become a means to produce new fantasies emotions and subjectivities

about Kenya's place in the world. Meanwhile, Kenya's alignment with the U.S. provides cover for the criminalization and policing of the country's Muslim minority population. How is life lived in a place that is not understood to be a site of war yet is often experienced as such by its targets? This book weaves together multiple scales of analysis, asking what a view from East Africa can tell us about the shifting configurations and expansive geographies of post-9/11 imperial warfare.

Masquerades of War Christine Sylvester, 2015-05-22 This collection explores the concepts and practices of masquerade as they apply to concepts and practices of war. The contributors insist that masquerades are everyday aspects of the politics, praxis, and experiences of war while also discovering that finding masquerades and tracing how they work with war is hardly simple. With a range of theories, innovative methodologies, and contextual binoculars, masquerade emerges as a layered and complex phenomenon. It can appear as state deception, lie, or camouflage, as in the population-centric American warfare in Iraq that was sold as good for the local people or the hidden violence Russian military forces used on each other and on local men in Chechnya. Masquerade can also be part of a people's war logic, as exemplified by the Maoist movement in India. Yet masquerade can also be understood as a normal social mask that people don to foreground an identity or belief from one's cluttered repertoire in order to gain agency. Elements of masquerade can appear in texts that proclaim seemingly unequivocal positions while simultaneously yet subtly suggesting opposing positions. Masquerades of all kinds also seem ubiquitous in fieldwork research and in resistance movements in war zones. Perhaps masquerade, though, is ultimately the denial of death lurking behind the clarion call of security, a call that bolsters war by making militarized policing normal to secure populations from terrorists. These interpretations and others comprise *Masquerades of War*. This book will be of much interest to students of critical war studies, critical security, conflict studies, and IR in general. *Researching the Inner Life of the African Peace and Security Architecture*, 2021-09-06 This edited volume offers new insights into the inner life of the African Peace and Security Architecture (APSA) and introduces scholars of African security dynamics to innovative epistemological, conceptual, and methodological approaches. Based on intellectual openness and an interest in transdisciplinary perspectives, the volume challenges existing orthodoxies, poses new questions, and opens a discussion on actual research practice. Drawing on Global Studies and critical International Studies perspectives, the authors follow inductive approaches and let the empirical data enrich their theoretical frameworks and conceptual tools. In this endeavor, they focus on actors, practices, and narratives involved in African Peace and Security and move beyond the often Western-centric premises of research carried out within rigid disciplinary boundaries. Contributors are Michael Aebiy, Yvonne Akpasom, Katharina P. W. Doring, Ulf Engel, Fana Gebresenbet, Erda Linn, a Gelot, Amandine Gnangu, non Toni Haastrup, Jens Herpolsheimer, Alin Hilowle, Jamie Pring, Lilian Seffer, Thomas Kwasi Tieku, Antonia Witt, Dawit Yohannes Wondemagegnehu. Peacebuilding Paradigms Henry F. Carey, 2020-12-17 Peacebuilding is explained by combining interpretive frameworks, paradigms that have evolved from the subfields of international relations and comparative politics. Narrative Global

The Practice of Humanitarian Intervention Kai Koddenbrock, 2015-08-27 This book examines the practices in Western and local spheres of humanitarian intervention and shows how the divide between these spheres helps to perpetuate Western involvement Using the Democratic Republic of the Congo as a case study an object of Western intervention since colonial times this book scrutinizes the contemporary practice of humanitarian intervention from the inside It seeks to expose how humanitarian aid and peacekeeping works what obstacles they encounter and how they manage to retain their legitimacy By examining the relationship between the West and the DR Congo this volume asks why intervention continues to be so central for the relationship between Western and local spheres Why is it normal and self evident The main answer developed here is that the separation of these two spheres allows intervention to enjoy sufficient degrees of legitimacy to be sustained Owing to the contradictions that surface when juxtaposing the Western and Congolese spheres this book highlights how keeping them separate is key to sustaining intervention Bridging the divide between the liberal peace debate in International Relations and anthropologies of humanitarianism this volume thus presents an important contribution to taking both the legitimizing proclamations and local realities of intervention seriously The book will be of much interest to students of statebuilding peacebuilding peacekeeping anthropology research methods and IR in general
