objectives Note Online subscriptions are for three month periods Previous Edition Settlement Agreements in Commercial Disputes Negotiating Drafting and Enforcement ISBN 9780735514782 Covid-19 and Insurance María Luisa Muñoz Paredes, Anna Tarasiuk, 2023-01-10 This book offers a novel study on the impact of the Covid 19 pandemic on insurance from an international and comparative perspective It assesses how insurance has to adapt to a new landscape the effects of which will last over time and cut across all areas of the field To avoid physical contact digitalisation has accelerated dramatically affecting insurance in all its phases risk selection underwriting pricing and claims settlement However the effects of the Covid 19 pandemic go far beyond that The extent to which a claim caused directly or indirectly by the virus is or is not covered by a given policy has been the subject of debate in many insurance branches The most litigated cases worldwide are those that concern damages resulting from business interruption due to restrictions enforced by the authorities in virtually every country This book analyses the rulings for and against the insured that have already been handed down by courts in various jurisdictions for example in the US Latin America Spain and Germany in order to provide guidance to the parties in future lawsuits and also to guide the courts own responses This analysis extends to the measures that governments have taken in relation to insurance during the pandemic as well as the changes that insurers have introduced in their general conditions to exclude coverage for the pandemic This response is unsatisfactory as the big question is how pandemic related risks can be covered if private insurers simply refuse to do so Solutions based on risk sharing with public entities or the use of contractual modalities such as parametric insurance are among those outlined by the authors The book was written by experts from academia and lawyers specialising in this field and written for all those interested in the field of insurance lawyers judges academics and legal professionals *Fault Lines* David M. Engel, Michael McCann, 2009-04-24 Tort law a fundamental building block of every legal system features prominently in mass culture and political debates As this pioneering anthology reveals tort law is not simply a collection of legal rules and procedures but a set of cultural responses to the broader problems of risk injury assignment of responsibility compensation valuation and obligation Examining tort law as a cultural phenomenon and a form of cultural practice this work makes explicit comparisons of tort law across space and time looking at the United States Europe and Asia in the nineteenth twentieth and twenty first centuries It draws on theories and methods from law sociology political science and anthropology to offer a truly interdisciplinary pathbreaking view Ultimately tort law the authors show nests within a larger web of relationships and shared discursive conventions that organize social life **New Appleman on Insurance** Douglas R.
