

Xerox Phaser 6200 Maintenance Firmware Release Installation Instructions

October 3, 2002

In May 2002, the Xerox Office Printing Business introduced the award-winning Phaser 6200 Color Laser Printer. Combining high performance, superior print quality, and unprecedented ease-of-use, the Phaser 6200 printer offers the best value available for letter-sized color laser printers.

In keeping with Xerox' total commitment to quality, Xerox is pleased to offer Phaser 6200 customers this maintenance release of printing software. This new software improves printer usability and reliability by addressing problems that were discovered after the initial introduction of the product. Xerox is confident that this software will further improve your printing experience.

This document describes the steps necessary to upgrade a Phaser 6200 printer from the original firmware release to the new version using the flash update program file.

Printers manufactured after October 2002 were shipped with the new firmware pre-installed, and do not require this maintenance release.

The maintenance release software is available to download at no charge from the Internet at:

http://officeprinting.opbu.xerox.com/cgi-bin/formeng.pl?form=6200printer_firmwareupdate

A two CD-ROM set containing the new printer driver and utilities and the printer firmware flash update PostScript file may be ordered by calling 1-800-835-6100.

See the "Technical Change Notes for the Xerox Phaser 6200 Maintenance Firmware Release" document that is included in the maintenance release package for a detailed list of changes from the original printer firmware to the new version.
