

## Customer Expectation Document

### WorkCentre 5325/5330/5335 Multifunction Printer/Copier

Version 7, 15 July 2011

#### Volume Range / Performance

The WorkCentre 5325/5330/5335 is designed to produce consistent uniform looking monochrome prints and copies.

The WorkCentre 5325/5330/5335 series is designed to operate in the range of 4,000 to 20,000 copies or prints per month.

The number of copies or prints between service calls on a digital copier / printer is highly dependent on customer expectations of quality and the use of applications and throughput materials.

At an average usage of 10,000 copies or prints per month, it is expected that service will be required less than three times per year. Volumes higher than this could result in more frequent service.

Maximum copy/print volume supported under standard vendor supplied service for any single month. Customers should consider multiple machines if average monthly volume approaches duty cycle on a continual basis.

Maximum Duty Cycle:

- WorkCentre 5325: Up to 100,000 transactions per month
- WorkCentre 5330: Up to 125,000 transactions per month
- WorkCentre 5335: Up to 150,000 transactions per month

#### Installation Considerations

- Physical delivery of WorkCentre 5325/5330/5335 will be by a Xerox authorized "Delivery/Removal" carrier. The carrier will install and perform a functional check of the printer/copier unit. The carrier will review the software/documentation with the customer. The customer is responsible for connecting and configuring the equipment on their network.
- There should be a minimum of 78 inches (1,981 mm) clearance from the floor to the nearest overhead obstruction.
- Electrical requirements and space requirements must be satisfied before the equipment is delivered.
- One network drop is required for installation as a printer / copier.

#### Customer Training

Documentation will be available for customers looking to learn more about this device. Customer training on machine features and functions is also a purchasable service for the WorkCentre 5325/5330/5335.

#### Electrical Requirements
