

Weapon Details

In the centre of the screen is displayed a list of the weaponry currently available from EuroCorp Central Armory. To get information on a particular piece of kit, **left-click** on its name. Details of the weapon, along with a picture, are then displayed in the window at the right of the screen. The details are as follows:

Category: The energy source the weapon relies upon for its effects. These include Kinetic, Biological, Chemical, Mental and Energy.

Weapon Power: How much damage the weapon inflicts.

Weapon Range: The distance the weapon can shoot.

Energy Consumption: How much energy the weapon drains from an Agent's Powersack when firing.

Price: The cost of buying the new weapon.

You can also **left-click** on the weapon's picture to receive a short text description of the weapon.

Buying and Selling

If, after studying a weapon's details, you wish to purchase it for your Agent, **left-click** on the **Accept** box at the bottom left of the window. The price in credits will automatically be deducted from your cash reserves, and the Agent will receive the selected weapon. Note that an Agent can only have one of each type of weapon; refinements in weapon technology have made ammunition obsolete, and it is unnecessary for an Agent to possess more than one of a certain weapon for operational use.

It is also possible to sell back to EuroCorp Central Armory weapons that you no longer have a use for. To do this, **left-click** on the desired weapon in the Agent's inventory. Weapon details and picture will appear as usual, but the **Accept** box will have been replaced with a **Sell** box. The price EuroCorp Central Armory are offering will appear in the **Price** entry. This will usually be about half of the original asking price for the weapon.

Finding Weapons

If you have decided to use a weapon that you have found in the course of a mission, be advised that each time you fire it you run a 25% chance of depleting your weapon's energy supply. With due research on the Item, this problem can be alleviated.

List of Available Weapons

Initially, the following weapons are offered for your usage by EuroCorp Central Armory. More will become available later following Research.

Uzi Gun: Inspired from the chaos of mid 20th century street-fighting, the energy pellet modified Uzi Gun machine gun is still the basis of EuroCorp operations tech. It's an inexpensive and lightweight backup for Agents dealing with cases of drooping psychotics.

Minigun: Throughout the New Calendar, Syndicate deployment of inertia-damped chain gunners has become more commonplace. This 10mm plasma capsule firing, torque stabilised version has foam alloy barrels to reduce mass and production costs.

Permeadertren: A standard-issue utility for seizing the higher level brain functions of citizens equipped with UTOPIA CHiPs. Although very low power and lightweight, the Permeadertren's historical significance should not be underestimated, as it was instrumental in bringing about EuroCorp's global domination. Permeated subjects follow the controlling Agent without question, to the extent of equipping themselves for combat and engaging in hostilities without fear.

Knockout Gas: This hand grenade contains compressed Carbon Monoxide, an asphyxiating gas. The cloud emitted on detonation renders all personnel in the area unconscious for a limited time.

Medikit: This multi-function pack can be used to quickly repair the kinds of wounds and damage sustained in combat. The kit comprises a toughened skin graft patch impregnated with anaesthetic and surgical nanobots. Can be used once only.

Though not being made available to you the UZI, the Indestructible (see previous version of the handbook Permeadertren), the medical bringing Psyche Gel, the linked Knoc Gas, and the Medikit.
