The Necessary Earth Nature And Solitude In American Literature:

The Necessary Earth Wilson O. Clough, 1967 **A Century of Early Ecocriticism** David Mazel, 2001-01-01 In the 1970s the relationship between literature and the environment emerged as a topic of serious and widespread interest among writers and scholars The ideas debates and texts that grew out of this period subsequently converged and consolidated into the field now known as ecocriticism A Century of Early Ecocriticism looks behind these recent developments to a prior generation s ecocritical inclinations Written between 1864 and 1964 these thirty four selections include scholars writing about the green aspects of literature as well as nature writers reflecting on the genre In his introduction David Mazel argues that these early ecocritics played a crucial role in both the development of environmentalism and the academic study of American literature and culture Filled with provocative still timely ideas A Century of Early Ecocriticism demonstrates that our concern with the natural world has long informed our approach to literature **The Necessary Earth** Wilson Ober Clough, 1964 **Wilderness and the American Mind** Roderick Frazier Nash, 2014-01-28 DIVRoderick Nash s classic study of changing attitudes toward wilderness during American history as well as the origins of the environmental and conservation movements has received wide acclaim since its initial publication in 1967 The Los Angeles Times listed it among the one hundred most influential books published in the last quarter century Outside Magazine included it in a survey of books that changed our world and it has been called the Book of Genesis for environmentalists For the fifth edition Nash has written a new preface and epilogue that brings Wilderness and the American Mind into dialogue with contemporary debates about wilderness Char Miller s foreword provides a twenty first century perspective on how the environmental movement has changed including the ways in which contemporary scholars are reimagining the dynamic relationship between the natural world and the built environment div **E. A. Robinson's Narrative Poetry** Faisal Al-Doori, 2023-07-10 Edwin Arlington Robinson was a prolific American poet during the 1920s This book approaches one of the critical features of Robinson s poetry often overlooked by critics which is his method of narration Narration is one of the crucial points in Robinson s poetry that puzzles his critics Robinson s poems are portraits that include characters setting a method of narration and all other points that fit any narrative piece This book takes as its point of departure the idea that unless Robinson s narrative approach is discussed no proper understanding of his poems will be achieved The book deals with the influence of New England and Puritanism on the poet s life and works The book studies the poet s shorter and longer poems It also includes the study of his masterpiece The Man Against the Sky Nature Writing Don Scheese, 2013-10-28 In this comprehensive study of the genre Don Scheese traces its evolution from the pastoralism evident in the natural history observations of Aristotle and the poetry of Virgil to current American writers He documents the emergence of the modern form of nature writing as a reaction to industrialization Scheese s personal observations of natural settings sharpen the reader s understanding of the dynamics between author and locale His study is further informed by ample use of illustrations and close readings core writers such as

Thoreau John Muir and Mary Austin showing how each writer's work exemplifies the pastoral tradition and celebrate a spirit of place in the United States *Solitude* Philip Koch, 2015-12-15 In Koch's *Solitude* both solitude and engagement emerge as primary modes of human experience equally essential for human completion This work draws upon the vast corpus of literary reflections on solitude especially Lao Tze Sappho Plotinus Augustine Petrarch Montaigne Goethe Shelley Emerson Thoreau Whitman and Proust Koch uses the work of philosophers historians and writers as well as texts such as the Bible to show what solitude is and isn't and what being alone can do to and for the individual Interesting for its literary scope and its conclusions about all the good true solitude can bring us Booklist Reading this book is like dipping into many minds fierce and gentle The author reveals his long study of great philosophers and interprets their thoughts through the lens of his own experience with solitude He traces our early brushes with solitude and the fear it can engender then the craving for solitude that comes with full adult lives NAPRA Review **Americans and Their Forests** Michael Williams, 1992-06-26 Dr Williams begins by exploring the role of the forest in American culture the symbols themes and concepts for example pioneer woodsman lumberjack wilderness generated by contact with the vast land of trees He considers the Indian use of the forest describing the ways in which native tribes altered it primarily through fire to promote a subsistence economy

Ecofeminism Greta Gaard, 1993-01-14 Drawing on the insights of ecology feminism and socialism ecofeminism's basic premise is that the ideology that authorizes oppression based on race class gender sexuality physical abilities and species is the same ideology that sanctions the oppression of nature In this collection of essays feminist scholars and activists discuss the relationships among human beings the natural environment and nonhuman animals They reject the nature culture dualism of patriarchal thought and locate animals and humans within nature The goal of these twelve articles is to contribute to the evolving dialogue among feminists ecofeminists animal liberationists deep ecologists and social ecologists in an effort to create a sustainable lifestyle for all inhabitants of the earth Among the issues addressed are the conflicts between Green politics and ecofeminism various applications of ecofeminist theory the relationship of animal liberation to ecofeminism harmful implications of the romanticized woman nature association in Western culture and cultural limitations of ecofeminism In the series *Ethics and Action* edited by Tom Regan *The United States and Latin America* Fredrick B. Pike, 2010-07-05 The lazy greaser asleep under a sombrero and the avaricious gringo with money stuffed pockets are only two of the negative stereotypes that North Americans and Latin Americans have cherished during several centuries of mutual misunderstanding This unique study probes the origins of these stereotypes and myths and explores how they have shaped North American impressions of Latin America from the time of the Pilgrims up to the end of the twentieth century Fredrick Pike's central thesis is that North Americans have identified themselves with civilization in all its manifestations while viewing Latin Americans as hopelessly trapped in primitivism the victims of nature rather than its masters He shows how this civilization nature duality arose from the first European settlers perception that nature and everything identified with it

including American Indians African slaves all women and all children was something to be conquered and dominated This myth eventually came to color the North American establishment view of both immigrants to the United States and all our neighbors to the south

Reading Asian American Literature Sau-ling Cynthia Wong, 1993-07-12 A recent explosion of publishing activity by a wide range of talented writers has placed Asian American literature in the limelight. As the field of Asian American literary studies gains increasing recognition, however, questions of misreading and appropriation inevitably arise. How is the growing body of Asian American works to be read? What holds them together to constitute a tradition? What distinguishes this tradition from the mainstream canon and other minority literatures? In the first comprehensive book on Asian American literature since Elaine Kim's ground-breaking 1982 volume, Sau-ling Wong addresses these issues and explores their implications for the multiculturalist agenda. Wong does so by establishing the intertextuality of Asian American literature through the study of four motifs: food and eating, the Doppelgänger figure, mobility and play in their multiple sociohistorical contexts. Occurring across ethnic subgroup, gender, class, generational and historical boundaries, these motifs resonate with each other in distinctly Asian American patterns that universalistic theories cannot uncover. Two rhetorical figures from Maxine Hong Kingston's *The Woman Warrior: Necessity and Extravagance* further unify this original, wide-ranging investigation. Authors studied include Carlos Bulosan, Frank Chin, Ashley Sheun Dunn, David Henry Hwang, Lonny Kaneko, Maxine Hong Kingston, Joy Kogawa, David Wong Louie, Darrell Lum, Wing Tek Lum, Toshio Mori, Bharati Mukherjee, Fae Myenne Ng, Bienvenido Santos, Monica Sone, Amy Tan, Yoshiko Uchida, Shawn Wong, Hisaye Yamamoto, and Wakako Yamauchi. *The Noble Savage in the New World Garden* Gaile McGregor, 1988 This book is a literary history of the Noble Savage and a comprehensive metamorphology of the American mind. Wide-ranging and deep-diving, this book suggests many reevaluations of American heroes and attitudes. Visitor Use Density and Wilderness Experience Wayne A. Freimund, 2001
