Virgil, 1810 Voice in Later Medieval English Literature David Lawton, 2017 David Lawton approaches later medieval English vernacular culture in terms of voice As texts and discourses shift in translation and in use from one language to another antecedent texts are revoiced in ways that recreate them as public interiorities without effacing their history or future The approach yields important insights into the voice work of late medieval poets especially Langland and Chaucer and also their fifteenth century successors who treat their work as they have treated their precursors It also helps illuminate vernacular religious writing and its aspirations and it addresses literary and cultural change such as the effect of censorship and increasing political instability in and beyond the fifteenth century Lawton also proposes his emphasis on voice as a literary tool of broad application and his book has a bold and comparative sweep that encompasses the Pauline letters Augustine's Confessions the classical precedents of Virgil and Ovid medieval contemporaries like Machaut and Petrarch extra literary artists like Monteverdi later poets such as Wordsworth Heaney and Paul Valery and moderns such as Jarry and Proust What justifies such parallels the author claims is that late medieval texts constitute the foundation of a literary history of voice that extends to modernity The book's energy is therefore devoted to the transformative reading of later medieval texts in order to show their original and ongoing importance as voice work **The Oxford Encyclopedia of British**

Essay on Criticism and a new Contexts section on transatlantic literary currents **A Short History of Opera** Donald Jay Grout, Hermine Weigel Williams, 2003 The fourth edition incorporates new scholarship that traces the most important developments in the evolution of musical drama After surveying anticipations of the operatic form in the lyric theater of the Greeks medieval dramatic music and other forerunners the book reveals the genre's beginnings in the seventeenth century and follows its progress to the present day Jacket **Shaman and Sage** Michael Horton, 2024-05-28 The first volume of Michael Horton's magisterial intellectual history of spiritual but not religious as a phenomenon in Western culture Discussions of the rapidly increasing number of people identifying as spiritual but not religious tend to focus on the past century But the SBNR phenomenon and the values that underlie it may be older than Christianity itself Michael Horton reveals that the hallmarks of modern spirituality autonomy individualism utopianism and more have their foundations in Greek philosophical religion Horton makes the case that the development of the shaman figure in the Axial Age particularly its iteration among Orphists represented a divine self One must realize the divinity within the self to break free from physicality and become one with a panentheistic unity Time and time again this tradition of divinity hiding in nature has arisen as an alternative to monotheistic submission to a god who intervenes in creation This first volume traces the development of a utopian view of the human individual a divine soul longing to break free from all limits of body history and the social and natural world When the second and third volumes are complete students and scholars will consult *The Divine Self* as the authoritative guide to the spiritual but not religious tendency as a recurring theme in Western culture from antiquity to the present **Initiation into the Mysteries of the Ancient World** Jan N. Bremmer, 2014-07-28 The ancient Mysteries have long attracted the interest of scholars an interest that goes back at least to the time of the Reformation After a period of interest around the turn of the twentieth century recent decades have seen an important study of Walter Burkert 1987 Yet his thematic approach makes it hard to see how the actual initiation into the Mysteries took place To do precisely that is the aim of this book It gives a thick description of the major Mysteries not only of the famous Eleusinian Mysteries but also those located at the interface of Greece and Anatolia the Mysteries of Samothrace Imbros and Lemnos as well as those of the Corybants It then proceeds to look at the Orphic Bacchic Mysteries which have become increasingly better understood due to the many discoveries of new texts in the recent times Having looked at classical Greece we move on to the Roman Empire where we study not only the lesser Mysteries which we know especially from Pausanias but also the new ones of Isis and Mithras We conclude our book with a discussion of the possible influence of the Mysteries on emerging Christianity Its detailed references and up to date bibliography will make this book indispensable for any scholar interested in the Mysteries and ancient religion but also for those scholars who work on initiation or esoteric rituals which were often inspired by the ancient Mysteries *Reading Rilke's Orphic Identity* Erika M. Nelson, 2005 Studies in Modern German and Austrian Literature publishes research and scholarship devoted to German and Austrian literature of all forms and genres from the

eighteenth century to the present day The series promotes the analysis of intersections of literature with thought society and other art forms such as film theatre autobiography music painting sculpture and performance art

Seeing Sodomy in the Middle Ages Robert Mills, 2024-05-31 During the Middle Ages in Europe some sexual and gendered behaviors were labeled sodomitical or evoked the use of ambiguous phrases such as the unmentionable vice or the sin against nature How though did these categories enter the field of vision How do you know a sodomite when you see one In *Seeing Sodomy in the Middle Ages* Robert Mills explores the relationship between sodomy and motifs of vision and visibility in medieval culture on the one hand and those categories we today call gender and sexuality on the other Challenging the view that ideas about sexual and gender dissidence were too confused to congeal into a coherent form in the Middle Ages Mills demonstrates that sodomy had a rich multimedia presence in the period and that a flexible approach to questions of terminology sheds new light on the many forms this presence took Among the topics that Mills covers are depictions of the practices of sodomites in illuminated Bibles motifs of gender transformation and sex change as envisioned by medieval artists and commentators on Ovid sexual relations in religious houses and other enclosed spaces and the applicability of modern categories such as transgender butch and femme or sexual orientation to medieval culture Taking in a multitude of images texts and methodologies this book will be of interest to all scholars regardless of discipline who engage with gender and sexuality in their work

Reflections and New Perspectives on Virgil's Georgics Nicholas Freer, Bobby Xinyue, 2019-02-21 Virgil's *Georgics* the most neglected of the poet's three major works is brought to life and infused with fresh meanings in this dynamic collection of new readings The *Georgics* is shown to be a rich field of inherited and varied literary forms actively inviting a wide range of interpretations as well as deep reflection on its place within the tradition of didactic poetry The essays contained in this volume contributed by scholars from Australia Europe and North America offer new approaches and interpretive methods that greatly enhance our understanding of Virgil's poem In the process they unearth an array of literary and philosophical sources which exerted a rich influence on the *Georgics* but whose impact has hitherto been underestimated in scholarship A second goal of the volume is to examine how the *Georgics* with its profound meditations on humankind nature and the socio political world of its creation has been re interpreted and appropriated by readers and critics from antiquity to the modern era The volume opens up a number of exciting new research avenues for the study of the reception of the *Georgics* by highlighting the myriad ways in which the poem has been understood by ancient readers early modern poets explorers of the New World and female translators of the twentieth and twenty first centuries

The Eye's Mind Karen Jacobs, 2018-09-05 The Eye's Mind significantly alters our understanding of modernist literature by showing how changing visual discourses techniques and technologies affected the novels of that period In readings that bring philosophies of vision into dialogue with photography and film as well as the methods of observation used by the social sciences Karen Jacobs identifies distinctly modernist kinds of observers and visual relationships This important reconception of modernism draws upon American British and French literary and extra literary materials from the period 1900 1955 These texts share a sense of crisis about vision's capacity for violence and its inability to deliver reliable knowledge Jacobs looks closely at the ways in which historical understandings of race and gender inflected visual relations in the modernist novel She shows how modernist writers increasingly aware of the body behind the neutral

lens of the observer used diverse strategies to displace embodiment onto those others historically perceived as cultural bodies in order to reimagine for themselves or their characters a purified gaze The Eye's Mind addresses works by such high modernists as Vladimir Nabokov Virginia Woolf and more distantly Ralph Ellison and Maurice Blanchot as well as those by Henry James Zora Neale Hurston and Nathanael West which have been tentatively placed in the modernist canon although they forgo the full blown experimental techniques often seen as synonymous with literary modernism Jacobs reframes fundamental debates about modernist aesthetic practices by demonstrating how much those practices are indebted to the changing visual cultures of the twentieth century
