Michael Serazio

The Nfl Critical And Cultural Perspectives Sporting:

The NFL Thomas Oates,Zack Furness,2015-02-19 The NFL is the first collection of critical essays to focus attention on the NFL as a cultural force The contributors and editors explore how the NFL is packaged for commercial consumption the league s influence on American identity and its relationship to state and cultural militarism to provide a fuller understanding of football s role in shaping contemporary sport media and everyday life back cover Sport and Militarism Michael L. Butterworth,2017-06-14 The institutional relationship between sport and the military appears to be intensifying In the US for example which faced global criticism for its foreign policy during the war on terror militaristic images are commonplace at sporting events The growing global phenomenon of conflating sport with war calls for closer analysis This critical interdisciplinary and international book seeks to identify intersections of sport and militarism as a means to interrogate interrupt and intervene on behalf of democratic peaceful politics Viewing sport as a crucial site in which militarism is made visible and legitimate the book explores the connections between sport the military and the state and their consequent impact on wider culture Featuring case studies on sports such as association football baseball and athletics from countries including the US UK Germany Canada South Africa Brazil and Japan each chapter sheds new light on the shifting significance of sport in our society This book is fascinating reading for all those interested in sport and politics the sociology of sport communication studies the ethics and philosophy of sport or military sociology **The Power of Sports** Michael Serazio,2019-04-23 A provocative must read investigation that both appreciates the importance of and punctures the hype around big time contemporary American athletics In an increasingly secular fragmented and distracted culture nothing brings Americans together quite like sports On Sundays in September more families worship at the altar of the NFL than at any church This appeal which cuts across all demographic and ideological lines makes sports perhaps the last unifying mass ritual of our era with huge numbers of people all focused on the same thing at the same moment That timeless live quality impervious to DVR evoking ancient religious rites makes sports very powerful and very lucrative And the media spectacle around them is only getting bigger brighter and noisier from hot take journalism formats to the creeping infestation of advertising to social media celebrity schemes More importantly sports are sold as an oasis of community to a nation deeply divided They are escapist apolitical the only tie that binds In fact precisely because they appear allegedly above politics sports are able to smuggle potent messages about inequality patriotism labor and race to massive audiences And as the wider culture works through shifting gender roles and masculine power those anxieties are also found in the experiences of female sports journalists athletes and fans and through the coverage of violence by and against male bodies Sports rather than being the one thing everyone can agree on perfectly encapsulate the roiling tensions of modern American life Michael Serazio maps and critiques the cultural production of today s lucrative ubiquitous sports landscape Through dozens of in depth interviews with leaders in sports media and journalism as well as in the business and marketing of sports The Power of

Sports goes behind the scenes and tells a story of technological disruption commercial greed economic disparity military hawkishness and ideals of manhood In the end despite what our myths of escapism suggest Serazio holds up a mirror to sports and reveals the lived realities of the nation staring back at us

Sport and Performance in the Twenty-First Century Kelsey Blair, 2022-12-30 Analyzing sport through the lens of performance and theorizing performance through the lens of sport Sport and Performance in the Twenty First Century offers a field intervention a series of in depth performance analyses and an investigation of the intersection between sport performances and public life in the historical present in the global north The objectives of this book are three fold First the book advocates for the study of sport in the fields of Theatre and Performance Studies and through in depth performance analyses demonstrates how the critical language and methods of performance studies help illuminate the manifold impacts of the practices activities and events of sport Second the book introduces new critical language that was originally developed in conjunction with sport but is also designed for cross genre performance analysis In introducing novel terminology the book aims to simultaneously facilitate analysis of sport performances and to demonstrate how the study of sport can contribute to the fields of Theatre and Performance Studies Finally the book investigates the epistemological affective and socio political effects of sport performances in order to illuminate how sport performances influence and are influenced by their historical conditions This study will be of great interest to students and scholars in Theatre and Performance Studies Physical Culture Studies and Socio Cultural Sports Studies

Insights in sports social science Hans Westerbeek, Gayle McPherson, Jess C. Dixon, 2023-06-22

Football, Culture and Power David J. Leonard, Kimberly B. George, Wade Davis, 2016-10-14 What does it mean when a hit that knocks an American football player unconscious is cheered by spectators What are the consequences of such violence for the participants of this sport and for the entertainment culture in which it exists This book brings together scholars and sport commentators to examine the relationship between American football violence and the larger relations of power within contemporary society From high school and college to the NFL Football Culture and Power analyses the social political and cultural imprint of America's national pastime The NFL's participation in and production of hegemonic masculinity alongside its practices of racism sexism heterosexism and ableism provokes us to think deeply about the historical and contemporary systems of violence we are invested in and entertained by This social scientific analysis of American football considers both the positive and negative power of the game generating discussion and calling for accountability It is fascinating reading for all students and scholars of sports studies with an interest in American football and the wider social impact of sport Chapter 14 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Making Sport Great Again David L. Andrews, 2019-04-05 Blending critical theory conjunctural cultural studies and assemblage theory Making Sport Great Again introduces and develops the concept of uber sport the sporting expression of late capitalism's conjoined corporatizing

commercializing spectacularizing and celebritizing forces On different scales and in varying spaces the uber sport assemblage is revealed both to surreptitiously reinscribe the neoliberal preoccupation with consumption and to nurture the individualized consumer subject Andrews further probes how uber sport normalizes the ideological orientations and associate affective investments of the Trump assemblage s authoritarian populism Even as it articulates the regressive politicization of sport Making Sport Great Again serves also as a call to action how might progressives rearticulate uber sport in emancipatory and actualizing political formations

The End of College Football Nathan Kalman-Lamb,Derek Silva,2024-10-04 In this book Nathan Kalman Lamb and Derek Silva offer an existential challenge to one of America s favorite pastimes college football Drawing on twenty five in depth interviews with former players from some of the country s most prominent college football teams Kalman Lamb and Silva explore how football is both predicated on a foundation of coercion and suffused with racialized harm and exploitation Through the stories of those who lived it the authors examine the ways in which college football must be understood as a site of harm revealing how players are systematically denied the economic value they produce for universities and offered only a devalued education in return By illuminating the plantation dynamics that make college football a particularly racialized form of exploitation the book makes legible the forms of physical sacrifice that are required the ultimate cost in health and well being and the coercion that drives players into the sport and compels them to endure such abusive conditions

The Palgrave Handbook of Sport, Politics and Harm Stephen Wagg,Allyson M. Pollock,2022-01-01 This book looks historically at the harm that has been inflicted in the practice of sport and at some of the issues debates and controversies that have arisen as a result Written by experts in history sociology sport journalism and public health the book considers sport and injury in relation to matters of social class gender ethnicity and race sexuality political ideology and national identity health and wellbeing childhood animal rights and popular culture These matters are in turn variously related to a range of sports including ancient pre and early industrial sports American football boxing wrestling and other combat sports mountaineering horseracing cycling motor racing rugby football cricket association football baseball basketball Crossfit ice hockey Olympic sports Mixed Martial Arts and sport in an imagined dystopian future

Science and Football VIII Jens Bangsbo,Peter Krstrup,Peter Riis Hansen,Laila Ottesen,Gertrud Pfister,Anne-Marie Elbe,2016-11-25 Science and Football VIII showcases the very latest scientific research into the variety of sports known as football These include soccer the national codes American football Australian rules football and Gaelic football and the rugby codes union and league Bridging the gap between theory and practice this book is by far the most comprehensive collection of current research into football presenting important new work in key areas such as physiology of training performance analysis fitness assessment nutrition biomechanics injury and rehabilitation youth football environmental physiology psychology in football sociological perspectives in football Science and Football VIII is an essential resource for all sport scientists trainers coaches physical therapists physicians psychologists educational officers and professionals working across

the football codes Chapter 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Palgrave Handbook of Masculinity and Sport Rory

Magrath, Jamie Cleland, Eric Anderson, 2019-09-04 Over the past two decades there has been a rapid transformation of masculinities in the West largely facilitated by a decline in cultural homophobia The significant changes in the expression of masculinity particularly among younger generations of men have been particularly evident in men's team sports which have become an increasingly diverse and inclusive culture Drawing upon work from a wide range of established and emerging international scholars this handbook provides a comprehensive and interdisciplinary analysis of the contemporary relationship between masculinity and sport It covers a range of areas including history media gender sexuality race violence and fandom considering how they impact a range of different sports across the world Students and scholars across many disciplines will find the unparalleled overview provided by these specially commissioned chapters an invaluable resource

Touchdown Gerald R. Gems, Gertrud Pfister, 2017-09-30 American football is the most popular and controversial sport in the United States and a massive industry The NFL's revenues are over 13 billion annually The Super Bowl is watched by half of US television households and is televised in over 150 countries Touchdown An American Obsession is the first comprehensive guide to the history and culture of the sport covering US college football as well as professional football worldwide The editors and authors are among the world's leading sports scholars They cover race ethnicity religion gender social class and globalization as well as recent scandals and controversies the importance of television and the art and aesthetics of the game Touchdown An American Obsession is a readable authoritative guide for Americans as well as an introduction for people around the world

Routledge Handbook of the Sociology of Sport Richard Giulianotti, 2015-07-24

The sociology of sport is a core discipline within the academic study of sport. It helps us to understand what sport is and why it matters. Sociological knowledge, implicit or explicit, therefore underpins scholarly enquiry into sport in every aspect. The Routledge Handbook of the Sociology of Sport is a landmark publication that brings together the most important themes, theories and issues within the sociology of sport, tracing the contours of the discipline and surveying the state of the art. Part One explores the main theories and analytical approaches that define contemporary sport sociology and introduces the most important methodological issues confronting researchers working in the social scientific study of sport. Part Two examines the connections and divisions between sociology and cognate disciplines within sport studies, including history, anthropology, economics, leisure and tourism studies, philosophy, politics and psychology. Part Three investigates how the most important social divisions within sport and in wider society are addressed in sport sociology, including race, gender, class, sexuality and disability. Part Four explores a wide range of pressing contemporary issues associated with sport, including sport and the body, social problems associated with sport, sport places and settings and the global aspects of sport. Written by a team of leading international sport scholars, including many of the most well-known, respected and innovative thinkers working in the discipline, the Routledge Handbook of the Sociology of Sport is an essential reference for any student, researcher or professional with an interest in sport.

Accessibility, Diversity, Equity and Inclusion in the Cultural Sector Julie Bérubé, Marie-Laure Dioh, Antonio C. Cuyler, 2024-08-20. Advocating for the immersion of ADEI practices into the heart of art organizations, this title links theory, practice and context as a way to further enrich cultural communities and wield the deeply human power of art for real human impact.

Sports and Identity Barry Brummett, Andrew Ishak, 2013-12-13. This volume of essays examines the ways in which sports have become a means for the communication of social identity in the United States. The essays included here explore the question: How is identity engaged in the performance and spectatorship of sports? Defining sports as the whole range of mediated professional sports and considering actual participation in sports, the chapters herein address a varied range of ways in which sports as a cultural entity becomes a site for the creation and management of symbolic components of identity. Originating in the New Agendas in Communication symposium sponsored by the University of Texas College of Communication, this volume provides contemporary explorations of sports and identity, highlighting the perspectives of up and coming scholars and researchers. It has much to offer readers in communication sociology of sport, human kinetics and related areas.

Sports and Politics Frank Jacob, 2020-08-24. Sport is everything but never solely sport. The commodification of human pleasure in or about many sports led to an increased political interest and dimension with regard to the major leagues and their stars. Corruption and scandals increased while the human being in sports was and still is very often exploited or mistreated. These problems often relate to the political dimension as well. Consequently, it seems very promising and necessary alike to take a closer look at the interrelation of sports and politics. The present volume addresses this interrelation from different angles when talking about issues like racism, gender inequality or

classism Sport, Exercise and Social Theory Gyoza Molnar, John Kelly, 2013-05-07 Why are sport and exercise important What can the study of sport and exercise tell us about wider society Who holds the power in creating contemporary sport and exercise discourses It is impossible to properly understand the role that sport and exercise play in contemporary society without knowing a little social theory It is social theory that provides the vocabulary for our study of society that helps us ask the right critical questions and that encourages us to look for the real story behind sport and exercise Sport Exercise and Social Theory is a concise and engaging introduction to the key theories that underpin the study of sport exercise and society including feminism post modernism Neo Marxism and the sociological imagination Using vivid examples and descriptions of sport related events and exercise practices the book explains why social theories are important as well as how to use them giving students the tools to navigate with confidence through any course in the sociology of sport and exercise This book shows how theory can be used to debunk many of our traditional assumptions about sport and exercise and how they can be a useful window through which to observe wider society Designed to be used by students who have never studied sociology before and including a whole chapter on the practical application of social theory to their own study it provides training in critical thinking and helps students to develop intellectual skills which will serve them throughout their professional and personal lives **Dispute Resolution in Sport** David McArdle, 2014-09-19 An increasing number of sport disputes are being resolved by way of arbitration This is the first book to critically examine the processes and benefits of sport specific arbitration as compared to litigation The book explores in depth the development of alternative dispute resolutions in sports paying particular attention to high profile institutions such as the Court of Arbitration for Sport the FIFA Football Dispute Resolution Panel and important national level bodies and their relationship with national and international level actors such as the IOC WADA and the European Union It also examines in detail the legal frameworks within which sports arbitration systems operate considers their similarities with other arbitral bodies and considers the extent to which ADR in sport can be seen as a consequence of and perhaps a solution to the juridification of sports Offering a theoretical basis with which to understand the relationship between arbitration and litigation as well as providing guidance on key contemporary issues and best practice this book is important reading for students researchers and practitioners working in sports law sports management and administration sports politics sports ethics and international organisation **Body Factory** Kaitlin Pericak, 2025-01-10 This book provides an ethnography of an athletic training center in the athletics department of an NCAA Division I University in the United States The author argues that the organizational orientation towards profit leads staff to use social structures to promote control and surveillance over individual care or empowerment

Thank you for reading **The Nfl Critical And Cultural Perspectives Sporting**. Maybe you have knowledge that, people have search numerous times for their chosen novels like this The Nfl Critical And Cultural Perspectives Sporting, but end up in infectious downloads.

Rather than enjoying a good book with a cup of coffee in the afternoon, instead they are facing with some infectious bugs inside their computer.
