Once Upon a Time in Facilities Management Patricia McCarroll, John

Hassard, 2024-09-23 What would the world of work look like if interpreted through the lens of the fairytale To answer this question *Once Upon a Time in Facilities Management* explores storied spaces and metaphorical archetypes in the study of business management and organization At its core the authors offer a diagnostic approach for the study of work organization that links management theory storytelling and the business imaginary An important empirical focus is also included that explores a business service rarely studied in the management literature Facilities Management FM a secondary service of non core and increasingly outsourced organizational functions An in depth appreciation of FM is provided that assesses the people practices and processes of the service in a study that also highlights the characteristic liminality of the sector s professional activities Emphasis is placed on illuminating the storytelling nature of the service using primarily the genre of fairytales to identify representational archetypes including queen shadow sage trickster adventurer and eternal child within FM s storied space In the process three central characters essentially modes of FM delivery are identified the professional consultant the external service provider and the in house function with these forming the structural basis of fairytales explaining the culture and symbolism of FM as a business service The authors conclude by extrapolating findings from the study to inform a discussion of the contributions of folkloric analysis to organization theory explicitly and our understanding of business and management practice more widely

Learning from Our Buildings National Research Council, Board on

Infrastructure and the Constructed Environment, Federal Facilities Council, 2002-03-01 In 1986 the FFC requested that the NRC appoint a committee to examine the field and propose ways by which the POE process could be improved to better serve public and private sector organizations The resulting report *Post Occupancy Evaluation Practices in the Building Process Opportunities for Improvement* proposed a broader view of POEs from being simply the end phase of a building project to being an integral part of the entire building process The authoring committee recommended a series of actions related to policy procedures and innovative technologies and techniques to achieve that broader view In 2000 the FFC funded a second

study to look at the state of the practice of POEs and lessons learned programs among federal agencies and in private public and academic organizations both here and abroad The sponsor agencies specifically wanted to determine whether and how information gathered during POE processes could be used to help inform decisions made in the programming budgeting design construction and operation phases of facility acquisition in a useful and timely way To complete this study the FFC commissioned a set of papers by recognized experts in this field conducted a survey of selected federal agencies with POE programs and held a forum at the National Academy of Sciences on March 13 2001 to address these issues This report is the result of those efforts

Water, Wastewater, and Stormwater Infrastructure Management Neil S. Grigg, 2012-06-08 Urban water services are building blocks for healthy cities and they require complex and expensive infrastructure systems Most of the infrastructure is out of sight and tends to be taken for granted but an infrastructure financing crisis looms in the United States because the systems are aging and falling behind on maintenance A road map for pu
