Fantastic Spiritualities J'annine Jobling, 2010-09-02

Ursula K. Le Guin's "A Wizard of Earthsea" Timothy S. Miller, 2023-03-01 Written not so long after Tolkien mania first gripped the United States in the 1960s Ursula K Le Guin's novel A Wizard of Earthsea 1968 has long been recognized as a classic of the fantasy genre and the series of Earthsea books that followed on it over the next several decades earned its author both considerable sales and critical accolades This new introduction to the text will closely contextualize the original novel in relation to its heady decade of composition and publication a momentous time for genre publishing and also survey the half century and more of scholarship on Earthsea which has shifted in direction and emphasis many times over the decades just as surely as Le Guin frequently adjusted her own sails when composing later works set in the fantasy world Above all this book positions A Wizard of Earthsea as perhaps an old text that nevertheless belongs in a new canon a key novel in the author's career and the genre in which it participates

and one that at once looks back to Tolkien and his own antecedents in masculinist early fantasy looks forward to Le Guin's own continuing feminist and progressive education and anticipates and indeed helped to shape young adult literature in its contemporary form

The Politics and Ethics of Identity Richard Ned Lebow, 2012-08-30 We are multiple fragmented and changing selves who nevertheless believe we have unique and consistent identities What accounts for this illusion Why has the problem of identity become so central in post war scholarship fiction and the media Following Hegel Richard Ned Lebow contends that the defining psychological feature of modernity is the tension between our reflexive and social selves To address this problem Westerners have developed four generic strategies of identity construction that are associated with four distinct political orientations Lebow develops his arguments through comparative analysis of ancient and modern literary philosophical religious and musical texts He asks how we might come to terms with the fragmented and illusionary nature of our identities and explores some political and ethical implications of doing so

Island Genres, Genre Islands Ralph Crane, Lisa Fletcher, 2017-02-03 Island Genres Genre Islands moves the debate about literature and place onto new ground by exploring the island settings of bestsellers Through a focus on four key genres crime fiction thrillers popular romance fiction and fantasy fiction Crane and Fletcher show that genre is fundamental to both the textual representation of real and imagined islands and to actual knowledges and experiences of islands The book offers broad comparative readings of the significance of islandness in each of the four genres as well as detailed case studies of major authors and texts These include chapters on Agatha Christie's islands the role of the island in Bondspace the romantic islophilia of Nora Roberts's Three Sisters Island series and the archipelagic geography of Ursula Le Guin's Earthsea Crane and Fletcher's book will appeal to specialists in literary studies and cultural geography as well as in island studies

Romancing the Novel Margaret Bruzelius, 2007 Romancing the Novel examines the ways in which romance forms characteristic of boys books as exemplified in the novels of Scott Dumas Verne and Stevenson influence narratives not generally put in the same category both psychoanalytical accounts of the psyche and novels by authors as diverse as George Eliot Ursula Le Guin Joseph Conrad and W G Sebald Adventure has been most recently studied largely as a symptom of imperialism's ideological apparatus But as an intensely familiar story available from the earliest reading adventure conditions the narratable its influence is felt from the nursery bed to the analyst's couch By reading Maurice Sendak with Melanie Klein and Peter Rabbit with Daniel Deronda Romancing the Novel argues that the power and depth of the generic constraints of the adventure form have not been recognized simply because they are so ubiquitous Adventure fiction is not merely summer reading whose ephemeral effects dissipate but rather a pervasive code that exerts powerful effects on the imaginable

Ursula K. Le Guin Susan M. Bernardo, Graham J. Murphy, 2006-09-30 Though science fiction

Dancing the Tao Sandra J. Lindow, 2012-11-15 Dancing the Tao Le Guin and Moral Development takes an original approach to Ursula K Le Guin's work speculative fiction poetry and children's literature by considering her Taoist upbringing and then looking through the lens of moral development theorists such as Carol Gilligan and Mary Field Belenky and psychologists such as Lenore Terr and Jennifer J Freyd It is the most comprehensive approach to Le Guin's moral thinking to date A particular emphasis is put on Le Guin's depiction of physical and sexual child abuse and its long term aftereffects such as post traumatic stress disorder The focus throughout the book is on how morality develops through self awareness and voice how moral decisions are made and how Le Guin challenges readers to reconsider their own moral thinking This book covers all of Le Guin's major works such as The Left Hand of Darkness The Dispossessed the Earthsea Series Always Coming Home The Telling and Lavinia and it also looks in depth at work that is rarely discussed such as Le Guin's early work her poetry and her picture books

Reflections and Musings From the Book of Revelation Shirley McClerklin-Motley PhD, 2023-12-27 John had been left out on Patmos to die alone The courts assumed that there was nothing he could do there to promote Jesus But they miscalculated God chose John to write the book of Revelation which some refer to as Apocalypse That word means the revelation of what will take place in the Incarnation hidden in a humble form It means to uncover If you are frying fish everyone around is aware of the distinctively rich aroma The person cooking the fish does not have to be seen and the fish does not have to be seen but the person smelling the aroma instinctively wants to take a closer look at the fish This is an example of the Apocalypse What we surmised is revealed Satan hates the book of Revelation because it shows him for who and what he is He is counting on us to be afraid of the book because it foretells his end Join the author as she takes a detailed look at the book that describes the years leading to the end of the world
