

Vocabulary

As a warm-up, put students into small groups and give them one minute to write down as many job titles as they can. Compile a list of their ideas on the board. Ask students to look at the pictures in the map and think about what the people are doing. Read the labeled countries aloud. Have students repeat after you.

- A** Say the occupations in the box for students to repeat. Invite volunteers to explain each word, confirming or correcting as necessary (e.g., A *chef* cooks food in a restaurant. A *pilot* flies airplanes.)
- Have students complete the exercise and compare their answers with a partner.
- Review all answers as a class.
- B** Point out the expression in the Real Language box.
- Model the conversation with one student. In pairs, have students take turns asking and answering questions about the other people in the pictures.
- Invite some pairs to perform their conversations in front of the class.

Grammar

Review all the statements with *be* from the chart. Then, practice new examples with students. For example, say, *I'm a teacher. I'm not a chef. What about you?* Elicit positive and negative sentences from several students.

Review the Yes/No questions and short answers. In pairs, have students practice three different questions and answers each. Direct students to additional practice activities in the Grammar Reference.

- B** In pairs, talk about the people in the photos.

Where is Norma from?

Norma is from Mexico.

What does she do?

She's a dancer.

Expansion Activity

Ask students to choose the three occupations they would most like to do, and also their three least favorite. Then, in small groups, have them compare their lists. Take a class poll to see which jobs are the most popular and unpopular. Have a class discussion, encouraging students to give reasons for their choices.

Grammar: Be

Remind your students that every sentence in English must contain a verb. The highest-frequency verb in English is *be*, so it's important to master it. Bear in mind that this verb can be tricky because it has irregular forms, and doesn't follow the same structure as the verb to be in other languages. Remember, also, that many languages do not use an *it* pronoun for things that are not people.
