Terms with Dogs Jake Monk, 2013-02 In this book we have hand picked the most sophisticated unanticipated absorbing if not at times crackpot original and musing book reviews of On Talking Terms With Dogs Calming Signals Don't say we didn't warn you these reviews are known to shock with their unconventionality or intimacy Some may be startled by their biting sincerity others may be spellbound by their unbridled flights of fantasy Don't buy this book if 1 You don't have nerves of steel 2 You expect to get pregnant in the next five minutes 3 You've heard it all Oh Behave Jean Donaldson, 2008-04 Jean

Donaldson brings her considerable wisdom and wit to a wide variety of topics of interest to dog trainers and enthusiasts in this book from Dogwise Publishing In 55 essays Jean tackles issues ranging from the nature vs nurture debate to the role of dominance in domestic dogs to what are the most effective ways to train dogs You will note a number of themes that flow throughout the book Jean is a firm believer in conducting scientific research verifiable results rather than forming opinions based on gut feel or taking an anthropomorphic view of dog behavior She also admits that we are flying blind on many issues because of a lack of research and tells the reader when that is the case She looks at problem behaviors problems for humans at least from the perspective that both a dog's genes and environment impact behavior and our ability to modify such behaviors is sometimes muddled since we don't always understand how genetics and environment interact And finally just what is a Dog Mom or Dad and how did that phenomenon develop and what is its genetic usefulness if any to both dogs and

people Along with her other best selling books Oh Behave is destined to be a classic in the literature on dog behavior
