competitors are outranking you Well it isn't magic or some kind of hocus pocus there is a really complex algorithmic system employed by search engines to weed out junk websites on the internet Your website might be very relevant and of extremely high quality however that doesn't mean that Google's bots and spiders that crawl the web understand that as much as you do This book was meant for audiences of all skill levels we explain things in simple steps and elaborate on our approach in a way that even a novice computer user could understand If you follow all the strategies included in this book you will be well on your way to outranking your competitors We hope you will enjoy our guide and as always if you have any questions feel free to email us info@websitedesignbyadam.com *The New Guide To SEO* RD King, The New Guide For Getting Rankings And Hordes Of High Quality Traffic With SEO If you want to get the maximum amount of profit from a website then you need to get as much traffic as you can If you want to get the maximum amount of traffic to your website then you need to get to the top of Google And if you want to get to the top of Google then you need SEO or Search Engine Optimization Search Engine Optimization is the process of optimizing a website so that Google will be more likely to index it and ensure that it ranks highly for the most relevant key words and phrases For example if you have a website that sells hats then you might try to get it to rank for the phrase buy hats online To do this you would go through an optimization process that would involve both on site and off site strategies With any luck you would eventually be able to get your website to the top of the SERP for that term Search Engine Results Page and thereby attract a huge amount of traffic More importantly that traffic would not just be from random visitors but would rather be from specific people who are looking for hats Better yet those people will be looking for hats at the very point that they came to your website why else would they search for hats which thereby means that they're ready to buy and it should only take a small push to get them to make that decision SEO can be a slow going process but it is still possible to very reliably climb the ranks and to get your website to a point where it will start getting more and more organic traffic from searches **Ultimate WordPress Handbook: An Essential Guide**
