One Tree Hill 1 The Beginning:

The Battle of One Tree Hill Ray Kerkhove, Frank Uhr, 2019 In 1840 Brisbane was the furthest outpost of settled Australia On all sides it was embedded in a richly Indigenous world Over the next few years mostly from across New South Wales northern plains a large push of pastoralists poured into the Darling Downs Lockyer and much of southern Queensland establishing huge sheep stations The violence that erupted welded many of the tribal groups into an alliance that by 1842 was working to halt the advance The Battle of One Tree Hill tells the story of one of the most audacious stands against this migration It concerns actions engineered by a father and son Moppy and Multuggerah In 1843 this culminated in an ingenious ambush and one of the first solid defeats of white settlement in Queensland The battle at Mount Table Top 128 kilometres west of Brisbane astounded many at the time The response was most likely the largest action of the frontier wars the assembly of some 100 or more officers soldiers police and armed settlers much of the region's white settlement drawn from hundreds of square kilometres This force sought to drive out the warriors but despite their best efforts resistance not only persisted but managed a few more victories A fort had to be established to protect travellers and brutal skirmishes massacres raids and robberies trickled on for decades The Battle of One Tree Hill introduces us to many of the flamboyant characters curious reversals of fortune and neglected incidents that together helped establish early Queensland This narrative work combines decades of archival research analysis reconstruction and interviews conducted by historians Ray Kerkhove and Frank Uhr

Early British Trackways Alfred Watkins, 2005-11-01 These if ancient seem to be invariably on not merely alongside a ley and in many cases are at the crossing of two leys thus appropriating the sighting point to a new use from Churches Were the significant sites of ancient Britain deliberately aligned along an invisible web of power Or is it a mere coincidence that so many locations associated with worship and arcane knowledge are situated in unique spatial relationship to one another Self taught photographer and anthropologist Alfred Watkins was the first to discover the ley lines apparently connecting the churches megaliths earthen mounds holy wells and other places of power in Britain and he published his results in this 1922 book Though he offers no extraordinary explanation of their meaning except perhaps that the leys represent ancient trade routes others have associated ley lines with UFOs crop circles dowsing and other paranormal phenomena Long out of print this foundational work is a vital resource for students of the supernatural British photographer and amateur archaeologist ALFRED WATKINS 1855-1935 was a fellow of the Royal Photographic Society and served as president of the Woolhope Naturalists Field Club in 1919 He also wrote *The Old Straight Track* 1925 and *The Ley Hunter's Manual* 1927 *History of Essex and Hudson Counties, New Jersey* William H.
