A Revised Consent Model for the Transplantation of Face and Upper Limbs: Covenant Consent James L. Benedict, 2017-04-25 This book supports the emerging field of vascularized composite allotransplantation VCA for face and upper limb transplants by providing a revised ethically appropriate consent model which takes into account what is actually required of facial and upper extremity transplant recipients In place of consent as permission giving waiver or autonomous authorization the standard approaches this book imagines consent as an ongoing mutual commitment i e as covenant consent The covenant consent model highlights the need

for a durable personal relationship between the patient subject and the care provider researcher Such a relationship is crucial given the recovery period of 5 years or more for VCA recipients The case for covenant consent is made by first examining the field of vascularized composite allotransplantation the history and present understandings of consent in health care and the history and use of the covenant concept from its origins through its applications to health care ethics today This book explains how standard approaches to consent are inadequate in light of the particular features of facial and upper limb transplantation In contrast use of the covenant concept creates a consent model that is more appropriate ethically for these very complex surgeries and long term recoveries Advanced Technologies, Systems, and Applications VII Naida Ademović, Edin Mujčić, Medžida Mulić, Jasmin Kevrić, Zlatan Akšamija, 2022-10-15 This book presents a collection of articles on the advanced and interdisciplinary application of innovative technologies Scientific investigations and results of the conference 13th Days of Bosnian Herzegovinian American Academy of Art and Sciences held in Sarajevo Bosnia and Herzegovina June 23-26 2022 are presented in this book The up to date advances in various fields of engineering have been presented through numerous papers spanning the disciplines of civil engineering mechanical engineering advanced electrical power systems computer modeling and simulations for engineering applications computer science and artificial intelligence geodesy and geoinformation data science and geographic information systems and information and communication technologies The editors would like to extend special gratitude to all the chairs of the planned symposia of the 13th Days of BHAAAS for their dedicated work in the production of this book **Standardization**, 1951 *Federal Register*, 1979-11
