*Towards Holistic Medicine* Bing Yuan, 2024-08-02 Holistic medicine is A clinical discipline that integrates both Eastern and Western medical methods and knowledge systems into one An evidence based medicine that simultaneously embodies both a holistic approach and personalized principles The most straightforward form of medicine that adheres to scientific standards and effectively meets the needs of humanity In recent years the integrated research on living organisms initiated by systems biology along with the efforts of precision medicine to tailor treatment plans based on the individual characteristics of each patient have opened up the process of modern biology and medicine returning to the ideas of Chinese medical traditions Under the larger perspective of the development and evolution of Eastern and Western medicine biology and even natural science for hundreds of years this book follows the evolution of modern scientific methods and reveals the inevitable trend of future medicine holistic medicine Holistic medicine is a medical system that fully integrates Chinese and Western medical methods and knowledge systems and conforms to scientific norms It is an evidence based medicine that embodies the holistic concept and individualized principles This book outlines the method and theoretical framework of holistic medicine and provides the method of constructing the theoretical system and using it to achieve the best regulation of diseases It can be expected that holistic medicine will become the mainstream medicine in the 21st century **The Myth of Judicial Independence** Mike McConville, Luke Marsh, 2020-06-28 Through an examination of the history of the rules that regulate police interrogation the Judges Rules in conjunction with plea bargaining and the Criminal Procedure Rules this book explores the Westminster Model under which three arms of the State parliament the executive and the judiciary operate independently of one another It reveals how policy was framed in secret meetings with the executive which then actively misled parliament in contradiction to its ostensible formal relationship with the legislature This analysis of Home Office archives shows how the worldwide significance of the Judges Rules was secured not simply by the standing of the English judiciary and the political power of the empire but more significantly by the false representation that the Rules were the handiwork of judges rather than civil servants and politicians The book critically examines the claim repeatedly advanced by judges that judicial independence is justified by principles arising from the rule of law and instead shows that the rule of law depends upon basic principles of the common law including an adversarial process and trial by jury and that the underpinnings of judicial action in criminal justice today may be ideological rather than based on principles **Thomas Register of American Manufacturers and Thomas Register Catalog File** , 1997 Vols for 1970 71 includes manufacturers catalogs **Science Citation Index** , 1992 Vols for 1964 have guides and journal lists
