

For my internship 1 I was placed at Relife School in Puyallup. Relife is part of the Puget Sound Educational Service District. Relife is a K-12 school serving students with significant behavioral challenges. Currently Relife has around 40 students and about 20 staff members. I began working at Relife at the beginning of the school year as a BESS (Behavioral and Education Support Specialist). At the start of my internship I was asked to get my emergency certification and become the teacher in a new classroom. So at the beginning of February I became the teacher for a 5th/6th grade classroom with 4 students.

The students are grouped by grade age level for their homeroom and social skills classes but move around for academics based on their levels. So for academics such as Math, Reading, and Science I was still able to work with my mentor teacher and co-teach those subjects. At the start of the quarter my mentor teacher handled most of the lesson planning and I worked more as a support staff. As the quarter went on we began taking turns with lesson planning and facilitating lessons and by the end of the quarter I was planning/facilitating the majority of the lessons as my mentor teacher prepared to go on extended leave for medical reasons.

Becoming the lead teacher in my own classroom was certainly a challenging experience but also very rewarding. The first obstacle or challenge I had was how to organize my classroom effectively. The classroom I was given had previously been used as an art room and also for a shop class. So a good chunk of my time the Friday before I opened my new classroom was spent cleaning out the room and getting things put in/out of storage. It was an interesting experience to think of how I wanted desks/chairs/tables
