A Teacher's Retirement Blessing

By Barbara D. MacAdam

You started on this journey, so many years ago, and now it's time to leave behind dear friends you've come to know!

It seems to me that this was more than just a job to you. The passion & the love you have for teaching shines right through.

You taught that there is more to life than being at the top. It's in how you choose to get there, that the blessings never stop.

You encouraged them to do their best & never mind their peers, to choose the straight and narrow, and to overcome their fears.

I've often thought how powerful your influence must be. You turned each student's world of dreams into possibilities!

Now I pray God keeps you safe and well, wherever you may turn, surrounded by your loved-ones, living out the dreams you've earned.

Barbara D. MacAdam

So never waste time wishing that you could have done much more... time to watch those seeds you planted grow and trust God for what's in store!

Former Educators' Roles in Supporting Student Growth and Learning West, Erin K.,2024-12-26 Former and retired educators continue to make meaningful contributions to student growth showcasing the enduring impact of teaching beyond the classroom Their dedication enriches communities by fostering mentorship advocacy and support for lifelong learning Highlighting their experiences offers valuable insights into how educators can remain active in promoting student success even after leaving formal teaching roles This commitment to

education strengthens societal bonds and emphasizes the importance of lifelong engagement in nurturing the next generation. **Former Educators Roles in Supporting Student Growth and Learning** delves into the narratives, strategies, and significance of former and retired educators who remain committed to nurturing student development and achievement long after leaving their formal teaching positions. It shares their experiences and honors their dedication, offering valuable insights and recommendations for former educators and community advocates who share a common dedication to supporting student success. Covering topics such as educator empowerment, mentorship, and teaching effectiveness, this book is an excellent resource for former and retired educators, current educators, and administrators, community leaders, educational researchers, and scholars, policymakers, and more.

Inquiry and Reflection Diane DuBose Brunner, 1994-01-01. **Inquiry and Reflection** shows how stories of schooling can elucidate difficult and unexamined problems facing teachers. While professional texts tend to raise issues of power and its distribution and questions of culture and ideology, often the manner of presentation is abstract, and pre-service teachers have difficulty making connections. Yet literary film and video materials illuminate problems and suggest ideas to which teachers can actively respond. This book offers teacher educators a variety of resources for articulating a critical pedagogy and suggests an alternative to the technical job training approach to teacher education by providing a unique educational curricula that illuminates issues of power, ideology, and culture.

Let Your Past Teach, Not Haunt: Wisdom Through Honest Reflection Sybex Books, 2025-06-23. Your past isn't a prison. It's a portal. **Let Your Past Teach, Not Haunt** is a compassionate and empowering guide to reflecting on where you've been without getting stuck there. We all carry moments we wish we could rewrite: regrets, heartbreaks, failures, decisions that still echo through our present. This book invites you to meet your story with honesty, not shame. You're not here to erase your past; you're here to understand it. Learn how to mine your experiences for meaning without turning them into identity. Break free from the looping thoughts that replay old pain as if it still belongs to you. See the patterns. Take the wisdom. Leave the weight. This isn't about pretending everything happened for a reason; it's about choosing the reason now. When you reflect with courage instead of judgment, you change how the past lives inside you. It no longer dictates. It instructs. And you become the author of what it means. This is how you reclaim your timeline: not by erasing the wounds but by allowing them to deepen your insight and strengthen your direction. Let your story become your teacher, not your cage.

On Becoming An Innovative University Teacher: Reflection In Action Cowan, John, 2006-03-01. This innovative and readable book is not something to be cherry-picked for quick hints and tips. It is a work to be read and re-read and savoured for its humanity, sagacity, practicality, and reflection upon the all-important relationships between teaching and learning and the teacher and the learner. *British Journal of Educational Technology* a delightful and unusual reflective journey; the whole book is driven by a cycle of questions, examples, strategies, and generalizations from the examples. In all, it is the clearest example of 'practise what you preach' that I have seen. John Biggs, Honorary Professor of Psychology, University of Hong Kong. This is a unique book.

against all odds Willie Mayes inspires two men Allen Lockett and Garrett Woods to go to battle with assimilating African American Studies into American collegiate education amid Stokeford University's President Douglas R Stingle thwarting Mayes' vision. Neither Allen nor Woods are aware that their resolve will inspire their successors Willard Mansberry and Bordecai Jones to seek an even grander pursuit. Willard's unyielding determination to carry on a worthy cause not only restructures higher education in the twentieth century but it also revolutionizes Black History through the merits of a life-defining question raised by Willard. During the early 1900s racial inequalities for African Americans had been in existence for almost three centuries. Led by Willie Mayes' inspiration, the time arrives for a new era of innovative ideas. Willie shares an idea that gives birth to an undeniable legacy. Amongst his many ingenious ideas is one that inspires his protégé Allen Lockett to restructure higher education in America. In 1941 Allen brings Willie Mayes' agenda to Stokeford University. Allen understands that education is the agent of change but not just any education. His new acumen sparks the start of a weekly newspaper journal *Negro Facts* which Stokeford's President Douglas R Stingle disrupts. Ultimately this leads to Allen's resignation in 1943 but his passionate efforts don't go unnoticed. Garrett Woods is the first to take notice of Allen's efforts. Several years later in 1953 Stokeford's former student turned professor Willard Mansberry is inspired by Woods and Lockett's endeavors to start an African American Studies course at Stokeford. Ten years later after Woods and Lockett turn up missing and are presumed dead, Willard leads the way to the implementation of the first African American Studies PhD program under the auspices of Stokeford's new President Bordecai Jones. Bordecai is initially optimistic but apprehensive about supporting Willard's idea of turning African American Studies, which is an elective, into a full-fledged PhD program because Willard does not have a PhD. He can't attain a PhD because his idea lacks support from essential professors at Stokeford but this doesn't stop Willard from making history. Bordecai faces a daunting task of keeping his university funded or disobeying his supporters for the greater good. His supporters are comprised of Ivy League supporters, Stokeford professors, White educators, and prominent legacies such as Jimmy C Roker Jr. Jimmy supports Black colleges but only if they follow the Tuskegee Hampton Model. Allen and Garrett inspire Willard to finish their war against educational inequalities in collegiate academia. Willard's biggest challenge arises when Bordecai speaks on his behalf in a private meeting with supporters of Stokeford University. During this meeting and to Willard's surprise Jimmy C Roker Jr agrees to support Willard's idea but only if his students can outwit an Ivy League School in a national debate regarding Booker T Washington's Tuskegee Hampton Model versus W E B Dubois' Scholarly Concepts for African Americans.
