Buzz Into Action David Alexander, 2012 Calling all aspiring entomologists apiologists and lepidopterists as well as kids who just think bugs bees and butterflies are cool *Buzz Into Action* is a lively insect education curriculum for teaching about the world's most abundant and accessible group of animals This cross disciplinary guide introduces children to the joy of insects through investigations that involve scientific inquiry and knowledge building rather than memorisation You can put the 20 hands on lessons to work individually or as a curriculum in the field or in the classroom Activities range from the basic how to identify an insect to the irresistible Pollinator Party Relay Race Camouflaged Critters and Colony Collapse Town Meeting For ease of use each lesson plan provides A quick read overview of the activity's requirements Detailed objectives materials lists and background information Step by step procedures and reproducible activity sheets Assessments and extensions Reference materials including field guides websites and story books that complement lessons and help you hone in on species from your own region In fact *Buzz Into Action* provides almost everything you need to get your classroom buzzing Just add insects and curious children

Project-Based Learning Applied to the Language Classroom Juliana Franco Tavares/ Louise Emma Potter, 2018-03-05 In *Project Based Learning Applied to the Language Classroom* the authors propose a way to develop PBL in the language classrooms taking into account all of the obstacles and specifics involved in teaching a foreign language It is about teaching English as a second or foreign language using Project Based Learning PBL We approach this combination because many people seem to think about implementing PBL in their language classes and ask questions about how to do it but feel that there aren't enough materials based on this methodology In fact most researchers and writers we have come across discuss the applications of PBL in the students mother tongue to subjects such as Math History Literature Social Studies and Science However there are few published works about the specifics of PBL in foreign language classes Besides it seems obvious to us that the main difficulty in developing projects in a second or foreign language lies exactly on the fact that communication may be hindered when students do not have enough knowledge in the target language
