Dries Raeymaekers, Sebastiaan Derks, 2016-07-11 Proximity to the monarch was a vital asset in the struggle for power and influence in medieval and early modern courts The concept of access to the ruler has therefore grown into a dominant theme in scholarship on pre modern dynasties Still many questions remain concerning the mechanisms of access and their impact on politics Bringing together new research on European and Asian cases the ten chapters in this volume focus on the ways in which access was articulated regulated negotiated and performed By taking into account the full complexity of hierarchies ceremonial rites spaces and artefacts that characterized the dynastic court The Key to Power forces us to rethink power relations in the late medieval and early modern world Contributors are Christina Antenhofer Ronald G Asch Florence Berland Mark Hengerer Neil Murphy Fabian Persson Jonathan Spangler Michael Talbot Steven Thiry and Audrey Truschke

French Royal Women during the Restoration and July Monarchy Heta Aali, 2021-06-10 This book examines public discussions around France's four most prominent royal women during the first and second Restoration and July Monarchy the duchesse d'Angoulême the duchesse de Berry Queen of the French Marie Amélie and Adélaïde d'Orléans These were the most powerful women of the last decades of the French monarchy but the new roles women were assigned in post revolutionary France did not permit them to openly exercise political influence This book explores continuities and variations in narratives of royal legitimacy and how historians authors and politicians used national history particularly medieval and early modern history to either legitimize or undermine the French monarchy and to define women's social and

political roles Versailles Colin Jones,2018-08-09 Few buildings carry such a freight of historical symbolism as the Palace of Versailles First built as a hunting lodge by Louis XIII in the early seventeenth century then radically repurposed by his absolutist son Louis XIV Versailles became the focus of that king s centralised power Drawing on a new wave of research in recent years particularly on the buildings and material culture of Versailles Colin Jones distinguished historian of early modern France describes the various building campaigns undertaken by Louis XIV and his formal installation of his court at Versailles in 1682 the ritualized rhythms of life at the court of the Sun King the palace s variegated fortunes under Revolution First Empire Restoration and July Monarchy its return to the political stage in the Franco Prussian War its later role as a venue for treaty signings and proclamations and its continuing legacy as imposing physical embodiment of the ancien r gime *Molière in Context* Jan Clarke,2022-11-24 The definitive guide to Moli re s world and his afterlife this is an accessible contextual guide for academics undergraduates and theatre professionals alike Interdisciplinary and diverse in scope each chapter offers a different perspective on the social cultural intellectual and theatrical environment within which Moli re operated as well as demonstrating his subsequent impact both within France and across the world Offering fresh insight for those working in the fields of French Studies Theatre and Performance Studies and French History Moli re in Context is an exceptional tribute to the premier French dramatist on the 400th anniversary of his birth **The Consumer Revolution, 1650-1800** Michael Kwass,2022-02-03 A bold new interpretation of consumer revolution in 18th century Europe examining globalization and the politics of consumption in the age of Revolution **The Bedroom** Michelle Perrot,2018-08-21 An erudite and highly enjoyable exploration of the most intriguing of personal spaces from Greek and Roman antiquity through today The winner of France s prestigious Prix Femina Essai 2009 this imaginative and captivating book explores the many dimensions of the room in which we spend so much of our lives the bedroom Eminent cultural historian Michelle Perrot traces the evolution of the bedroom from the time of the ancient Greeks and Romans to today examining its myriad forms and functions from royal king s chamber to child s sleeping quarters to lovers trysting place to monk s cell The history of women so eager for a room of their own and that of prisons where the principal cause of suffering is the lack of privacy is interwoven with a reflection on secrecy walls the night and its mysteries Drawing from a wide range of sources including architectural and design treatises private journals novels memoirs and correspondences Perrot s engaging book follows the many roads that lead to the bedroom birth sex illness death in its endeavor to expose the most intimate nocturnal side of human history The Dream of Absolutism Hall Bjørnstad,2021-10-15 The Dream of Absolutism examines the political aesthetics of power under Louis XIV What was absolutism and how did it work What was the function of the ostentatious display surrounding Louis XIV at Versailles What is gained and what is lost by approaching such expressions of absolutism as propaganda as present day scholars tend to do In this sweeping reconsideration of absolutist culture Hall Bj rnstad argues that the exuberance of Louis XIV s reign was not top down propaganda in any modern sense but

rather a dream dreamt collectively by king court image makers and nation alike Bj rnstad explores this dream through a sustained close analysis of a corpus of absolutist artifacts ranging from Charles Le Brun s famous paintings in the Hall of Mirrors at Versailles via the king s secret M moires to two little known particularly extravagant verbal and textual celebrations of the king The dream of absolutism Bj rnstad concludes lives at the intersection of politics and aesthetics It is the carrier of a force that emerges as a glorious image a participatory emotional reality that requires reality to conform to it It is a dream finally that still shapes our collective political imaginary today

Fate, Glory, and Love in Early Modern Gallery Decoration Margaretha Rossholm Lagerlof, 2017-07-05 Analysing the decorative programmes of the most opulent European palaces of the time Margaretha Rossholm Lagerl f investigates how meaning was conveyed through display and visual effects She explores the visual meaning inherent in the scheme of spatial relations in effects of scale perspective lighting figures positions and postures and in relations among image types The analysis concerns the interrelations of various kinds of images in the ensembles the relations between images and physical site and the address to the beholder Lagerl f considers the visual impact of the imagery in conjunction with readable or symbolically coded meanings thus the study does not merely subject these decorations to formalist aesthetic principles She shows the visual meaning generally to sustain the verbal or readable messages but often in subtle ways extending or elaborating the meaning Occasionally the visual meaning comes forth as an undercurrent or complication deviating from the proclaimed and symbolic meaning Fate Glory and Love in Early Modern Gallery Decoration contributes to the body of scholarship on visual rhetoric and on how images act out their messages

Antiquarianism and the Visual Histories of Louis XIV Robert Wellington, 2017-07-05 Antiquarianism and the Visual Histories of Louis XIV Artifacts for a Future Past provides a new interpretation of objects and images commissioned by Louis XIV 1638 1715 to document his reign for posterity The Sun King s image makers based their prediction of how future historians would interpret the material remains of their culture on contemporary antiquarian methods creating new works of art as artifacts for a future time The need for such items to function as historical evidence led to many pictorial developments and medals played a central role in this Coin like in form but not currency the medal was the consummate antiquarian object made in imitation of ancient coins used to study the past Yet medals are often elided from the narrative of the arts of ancient r me France their neglect wholly disproportionate to the cultural status that they once held This revisionary study uncovers a numismatic sensibility throughout the iconography of Louis XIV and in the defining monuments of his age It looks beyond the standard political reading of the works of art made to document Louis XIV s history to argue that they are the results of a creative process wedded to antiquarianism an intellectual culture that provided a model for the production of history in the grand si e

Exuberant Apotheoses: Italian Frescoes in the Holy Roman Empire Daniel Fulco, 2016-04-01 From the late seventeenth through the mid eighteenth centuries large scale Italian frescoes soared in popularity as nobles in the German principalities of the Holy Roman Empire constructed new palaces at an unprecedented rate They competed with one another

to produce lavish decorative schemes that expressed their claim to princely power and political authority Whereas previous art historians have primarily focused on iconographic and stylistic issues and generally treated these programs as individual commissions of regional courts this book places the works of art within their broad cultural and historical contexts during the Enlightenment This monograph explains how rulers gradually shifted from emphasizing military heroism to stressing their cultivation of the arts and sciences and addresses how expressing membership in a specifically European civilization emerged as an integral visual theme and a key ambition of the German nobility Officers, Entrepreneurs, Career Migrants, and Diplomats, 2024-08-19 Money money and more money In the eyes of early modern warlords these were the three essential prerequisites for waging war The transnational studies presented here describe and explain how belligerent powers did indeed rely on thriving markets where military entrepreneurs provided mercenaries weapons money credit food expertise and other services In a fresh and comprehensive examination of pre national military entrepreneurship its actors structures and economic logic this volume shows how readily business relationships for supplying armies in the 17th and 18th centuries crossed territorial and confessional boundaries By outlining and explicating early modern military entrepreneurial fields of action this new transnational perspective transcends the limits of national historical approaches to the business of war Contributors are Astrid Ackermann John Condren Jasmina Cornut Michael Depreter S bastien Dupuis Marian F ssel Julien Grand Andr Holenstein Katrin Keller Michael Paul Martoccio Tim Neu David Parrott Alexander Quereng sser Philippe Rogger Guy Rowlands Benjamin Ryser Regula Schmid and Peter H Wilson **King of the World** Philip Mansel, 2019-07-11 Winner of the Franco British Society Book Prize 2019 The ultimate biography of the Sun King Simon Sebag Montefiore Louis XIV dominated his age He extended France s frontiers into Netherlands and Germany and established colonies overseas The stupendous palace he built at Versailles became the envy of monarchs all over Europe In his palaces Louis encouraged dancing hunting music and gambling He loved conversation especially with women the power of women in Louis s life and reign is a particular theme of this book Louis was obsessed by the details of government but the cost of building palaces and waging continuous wars devastated the country s finances and helped set it on the path to revolution Nevertheless by his death he had helped make his grandson king of Spain where his descendants still reign and France had taken essentially the shape it has today King of the World is the most comprehensive and up to date biography of this hypnotic flawed figure in English It draws on all the latest research to paint a convincing and compelling portrait of a man who three hundred years after his death still epitomises the idea of le grand monarque The Pineapple from Domestication to Commodification Victoria Avery, Melissa Calaresu, 2025-10-15 The pineapple s discovery by European colonisers in the late fifteenth century and its remarkable global trajectory from an early modern object of rarity desire and horticultural innovation to a cheap canned consumable and fair trade logo today is a story of modern globalisation The Pineapple from Domestication to Commodification is a wide ranging interdisciplinary volume intended to provoke timely debate and generate radical

rethinking of an overly familiar fruit with associations from luxury to kitsch It deliberately problematizes the pineapple by investigating understudied tensions between its representational power and the historical and political contexts of its worldwide production and consumption This connects the global and local at the heart of contemporary debates about the nature and origins of our food It will have cross disciplinary appeal for scholars of politics economics history plant sciences food and material culture as well as for broader audiences interested in food gardening the environment and visual arts

Political Space in Pre-industrial Europe Beat Kümin, 2016-04-22 Social and cultural studies are experiencing a spatial turn Micro sites localities empires as well as virtual or imaginary spaces attract increasing attention In most of these works space emerges as a social construct rather than a mere container This collection examines the potential and limitations of spatial approaches for the political history of pre industrial Europe Adopting a broad definition of political the volume concentrates on two key questions Where did political exchange take place How did spatial dimensions affect political life in different periods and contexts Taken together the essays demonstrate that pre modern Europeans made use of a much wider range of political sites than is usually assumed not just palaces town halls and courtrooms but common fields as well as back rooms of provincial inns and that spatial dimensions provided key variables in political life both in terms of territorial ambitions and practical governance and in the more abstract forms of patronage networks representations of power and the emerging public sphere As such this book offers a timely and critical engagement with the spatial turn from a political perspective Focusing on the distinct constitutional environments of England and the Holy Roman Empire one associated with early centralization and strong parliamentary powers the other with political fragmentation and absolutist tendencies it bridges the common gaps between late medieval and early modern studies and those between historians and scholars from other disciplines Preface commentary and a sketch of research perspectives discuss the wider implications of the essays findings and reflect upon the value of spatial approaches for political history as a whole
