Ron Tyler, 2019-03-07 For nearly half a century celebrated historian Ron Tyler has researched interpreted and exhibited western American art This splendid volume gleaned from Tyler s extensive career of connoisseurship brings together eight of the author s most notable essays reworked especially for this volume Beautifully illustrated with more than 150 images

Western Art Western History tells the stories of key artists both famous and obscure whose provocative pictures document the people and places of the nineteenth century American West The artists depicted in these pages represent a variety of personalities and artistic styles According to Tyler each of them responded in unique ways to the compelling and exotic drama that unfolded in the West during the nineteenth century an age of exploration surveying pleasure travel and scientific discovery In eloquent and engaging prose Tyler unveils a fascinating cast of characters including the little known German Russian artist Louis Choris who served as a draftsman on the second Russian circumnavigation of the globe the exacting and precise Swiss artist Karl Bodmer who accompanied Prince Maximilian of Wied on his sojourn up the Missouri River and the young American Alfred Jacob Miller whose seemingly frivolous and romantic depictions of western mountain men and American Indians remained largely unknown until the mid twentieth century Other artists showcased in this volume are John James Audubon George Caleb Bingham Alfred E Mathews and finally Frederic Remington who famously sought to capture the last glimmers of the old frontier A common thread throughout Western Art Western History is the important role that technology especially the development of lithography played in the dissemination of images As the author emphasizes many works by western artists are valuable not only as illustrations but as scientific documents imbued with cultural meaning By placing works of western art within these broader contexts Tyler enhances our understanding of their history and significance

Utopian Universities Miles Taylor, Jill Pellew, 2020-11-12 In a remarkable decade of public investment in higher education some 200 new university campuses were established worldwide between 1961 and 1970 This volume offers a comparative and connective global history of these institutions illustrating how their establishment intellectual output and pedagogical experimentation sheds light on the social and cultural topography of the long 1960s With an impressive geographic coverage using case studies from Europe the Americas Africa and Asia the book explores how these universities have influenced academic disciplines and pioneered new types of teaching architectural design and student experience From educational reform in West Germany to the establishment of new institutions with progressive interdisciplinary curricula in the Commonwealth the illuminating case studies of this volume demonstrate how these universities shared in a common cause the embodiment of utopian ideals of living learning and governance At a time when the role of higher education is fiercely debated Utopian Universities is a timely and considered intervention that offers a wide ranging historical dimension to contemporary predicaments

Race and Gender in Modern Western Warfare David Ulbrich, Bobby A. Wintermute, 2018-12-03 This book fills a gap in the historiographical and theoretical fields of race gender and war In brief Race and Gender in Modern Western Warfare RGMWW offers an introduction into how cultural constructions of identity are transformed by war and how they in turn influence the nature of military institutions and conflicts Focusing on the modern West this project begins by introducing the contours of race and gender theories as they have evolved and how they are employed by historians anthropologists sociologists and other scholars The project then mixes chronological narrative with

analysis and historiography as it takes the reader through a series of case studies ranging from the early nineteenth century to the Global War of Terror. The purpose throughout is not merely to create a list of so called great moments in race and gender but to create a meta landscape in which readers can learn to identify for themselves the disjunctures, flaws and critical synergies in the traditional memory and history of a largely monochrome and male exclusive military experience. The final chapter considers the current challenges that Western societies, particularly the United States, face in imposing social diversity and tolerance on statist military structures in a climate of sometimes vitriolic public debate. RGMWW represents our effort to blend race, gender and military war to problematize these intersections and then provide some answers to those problems.

**The Best** A. Mark Williams, Tim Wigmore, 2020-08-20. Insightful, thoughtful and altogether wonderful. DANIEL COYLE, New York Times bestselling author of *THE TALENT CODE*. This book is a must read. EDDIE JONES, Head Coach England Rugby. An engrossing guidebook for youth athletes, parents, coaches and perhaps even fantasy league fans looking for a little insight. The Washington Post. *THE SECRETS OF SUPERHUMAN PERFORMANCE: THE BEST* reveals how the most incredible sportspeople in the world get to the top and stay there. It is a unique look at the path to sporting greatness, a story of origins, serendipity, practice, genetics and the psychology of excellence, as well as of sports science and cutting edge technology. Packed with gripping personal stories and exclusive interviews with top athletes including Siya Kolisi, Marcus Rashford, Pete Sampras, Steph Curry, Jamie Carragher, Ian Poulter, Helen Glover, Ada Hegerberg, Elena Delle Donne, Joey Votto and Mike Hussey, it explains how the best athletes develop the extraordinary skills that allow them to perform remarkable feats under extreme pressure. Get inside the minds of champions and understand first hand what makes them perform during high octane competition, what they think about in the heat of the moment and what drives them to do what they do. By combining examples from numerous original interviews with top athletes and leading sports science research, *THE BEST* deconstructs superhuman performance and answers the question on every sports fan's mind: How did they do that? Fascinating and insightful, *The Best* isn't a one size fits all; it's a highly thought out, well researched and accessible book that gives recommendations based on context and sport. JOANNE O'RIORDAN, The Irish Times. ABOUT THE AUTHORS: A. Mark Williams is an academic and one of the world's leading authorities on expertise and its acquisition in sport. He has published 18 books and written over 500 scientific articles on how people become skilled and achieve success in sport and across other professional domains. He has worked across the globe as a consultant with numerous Olympic and professional sports and has vast experience as a scientist, author and educator and as an applied sports scientist. Tim Wigmore is the author of *Cricket 2.0: Inside the T20 Revolution*, the winner of the Wisden Book of the Year award for 2020. He is a sports writer for The Daily Telegraph and has also written regularly for The New York Times, The Economist, The New Statesman and ESPNcricinfo. He is a former winner of the Young Cricket Journalist of the Year award and has been shortlisted for the Cricket Writer of the Year award.
