

Nursing Reflective Essay

Students' personal development is an essential part of today's academic process. They must therefore be able to organize their ideas and critically evaluate particular experiences. Reflective writing is used in different ways in different health professions, but in all of them it is required to think carefully and critically about an experience or a book. The underlying theme of reflective writing is the 'self', which involves a thorough examination of one's relationship to the subject. The process of reflective writing involves remembering and thinking about an experience or event and then writing about it.

According to [Research Prospect](#), nursing reflective essay involves choosing a real or hypothetical situation or event that has inspired you in some way. You also need to choose a topic for a reflection essay in nursing and answer questions such as "What did I observe as a result of this event?" and "How did this experience change my life?". Reflection and analysis of ideas or events is the central theme of such a paper.

Writing Nursing Reflective Essay Step by Step Guide

Introduction

All reflective essays in nursing often begin with a thesis statement and an overview of key concepts. State the objectives, objects or events you intend to explore. Focus on the most important details to attract the reader's attention. Your goals and concepts must be clearly expressed at this point.

Present Evidence

Your essay on reflection in nursing will be inadequate without evidence, so make an effort to investigate thoroughly. Imagine that you have witnessed a car accident or some other unfortunate event. Describe how it changed you and how you see the world. Spend some time finding reliable information that can help you make your case.

Put The Evidence into Action

Reflective Essay Example Nursing:

EBOOK: The Student Nurse's Guide to Successful Reflection: Ten Essential Ingredients Nicola Clarke, 2017-11-16

This book is an easy to read practical guide that will show you what reflection is and how you can do it successfully. Assuming no prior knowledge, it introduces you to ten essential ingredients to becoming an effective reflective practitioner. Chapters will equip you with evidence based understanding and ideas for application to your own situation and support you to become an emotionally resilient self aware individual who can reflect and improve on your practice. In clear and supportive language Nicola Clarke will guide you on your journey to developing the crucial reflection skills you need for your career as a nurse. The book includes:

- A step by step exploration of what reflection involves
- Ways to develop the skills you will need to do your own reflection
- A how to approach to using reflective models
- Practical and jargon free guidance on how to reflect
- A chapter on reflective writing
- Chapters about qualities you will need in your reflection such as being person centred and empathetic

The *Student Nurse's Guide to Successful Reflection* is a must have text for all nursing students as well as useful reading for those involved in supporting them. With a Foreword by Theo Stickley, Associate Professor, University of Nottingham, UK.

Reflection is a way of being encompassing many ingredients. Clarke, with great thoroughness and care, introduces these constructively supporting students towards developing self insight and understanding of others. Her advice, explanations, illustrations and exercises are lucid and paced, helping nurses towards sufficient strength to undertake the developmental change which effective reflective practice brings. And to become practitioners who are far more than competent nurses who are calmly self aware, receptive and perceptive.

Gillie Bolton, PhD, former Senior Research Fellow, Medicine and the Arts, King's College London, UK.

Reflection is a much discussed topic in nursing, but some students find it difficult to reflect on their own practice. Nicola Clarke's ten essential ingredients provide a clear and explicit guide to effective reflective practice and as such this should be a key text for all student nurses. The chapters of this new text offer clear learning outcomes, practical advice and models to follow in order to develop a genuine, honest and balanced reflective writing style. It is an engaging and informative read which promotes understanding of this important process.

Anita Savage, Grainge RMN, RGN, RNT, Senior Lecturer, University of York, UK.

An engaging book which deals with the complexity of reflection in a clear, logical and in depth manner. Developed around her extended definition of reflective practice, Clarke clearly and logically enables the reader to build their understanding of reflective practice by focusing on her ten ingredients. The structure of the book, focusing on two ingredients in each chapter, allows Clarke to provide clarity whilst at the same time showing the reader how the ingredients fit together to build a whole that is greater than the sum of its parts. The focus on critical and analytic skills, as well as person centredness based on Rogers' core conditions, provides a strong theoretical basis for students to understand reflective practice. The use of questions and examples throughout are engaging and will be useful for students and tutors alike. I think this book will be excellent for all healthcare workers, students and qualified alike. Whilst it is aimed at nurses, the principles

apply across healthcare I think it is a real gem and certainly the best book I have read about reflective practice Dr Rosie Stenhouse Nursing Studies University of Edinburgh UK
