imperfect This includes people with disabilities who are often thought of as transcendent beings but who should also be regarded as all around regular guys Just like the rest of the human race they often strive imperfectly to get through life In his descriptions the author hopes that readers will understand a little more about the nuts and bolts of running and wrestling not to mention skiing and scuba diving The ups and downs of coping with life and progressive loss of eyesight and by extraction disability in general will be clearer Readers will come away with a fuller appreciation of the ways people deal with challenges In the end we all have a choice whether to stand up or sit out The story related in these pages will occasionally give you cause to chuckle or even shed tears of sadness or joy Above all else it will enlighten you about why things happen the way they do Ultimately this memoir increases our understanding of what it means to be truly human Perhaps after reading it we will be kinder and gentler to each other Most important perhaps we will take it a little easier on ourselves *Psychology*
