Malebranche: The Search After Truth Nicolas Malebranche, Paul J. Olscamp, 1997-05 Distinguished translation of the major work by a figure of crucial importance to the Enlightenment

Reexamining Academic Freedom in Religiously Affiliated Universities Kenneth Garcia, 2016-12-21 Kenneth Garcia presents an edited collection of papers from the 2015 conference on academic freedom at religiously affiliated universities held at the University of Notre Dame These essays reexamine the secular principle of academic freedom and discuss how a theological understanding might build on and further develop it The year 2015 marked the 100th anniversary of the founding of the American Association of University Professors AAUP the leading advocate of academic freedom in America In October 2015 the University of Notre Dame convened a group of prominent scholars to consider how the concept and practice of academic freedom might evolve The premise behind the conference was that the current conventional understandings of academic freedom are primarily secular and therefore not yet complete The goal was to consider alternative understandings in light of theological insight Theological insight in this context refers to an awareness that there is a surplus of knowledge and meaning to reality that transcends what can be known through ordinary disciplinary methods of inquiry especially those that are quantitative or empirical Essays in this volume discuss how in light of the fact that findings in many fields hint at connections to a greater whole scholars in any academic field should be free to pursue those connections Moreover there are religious traditions that can help inform those connections

Malebranch's Search After Truth. Or A Treatise of the Nature of the Humane Mind, Nicolas Malebranche, 1694

The Works of Saint Augustine: v. 1. The Confessions Saint Augustine (of Hippo), 1990

The Trinity Saint Augustine (of Hippo), 1990 A splendid translation made from a trustworthy Latin text of what is for some of us the foundation work of Christian theology

He has fitted out his translation clearly the best of the four that have been made into English with notes that go well beyond the perfunctory and a 38 page introduction that is a delight to read Journal of Religion and Health Barry Ulanov *The Collected Sermons of William Sloane Coffin* William Sloane Coffin, 2008-01-01 Comprising the sermons preached by William Sloane Coffin while he was senior minister at the prestigious Riverside Church in New York City The Collected Sermons of William Sloane Coffin The Riverside Years captures the renowned preacher and social activist at work ministering to American hostages in Iran supporting AIDS awareness and rallying his audiences to battle poverty and nuclear proliferation all the while celebrating marriages baptisms and Mothers Days and mourning the loss of loved ones including his own son In each of these brilliant and painstakingly crafted sermons Coffin combined his deep love of Scripture and passionate commitment to peace and justice with his unparalleled gift for the spoken word While also revealing the personal and pastoral dimensions of ministry each sermon provides a powerful example of lifes well accomplished mission to challenge the conscience of a nation For those who knew William Sloane Coffin these sermons will be a treasured remembrance For those who regret not knowing him they provide the best of introductions And for those who as yet have escaped Coffins influence they are superb testimony to the great potential of ministry the possibilities of hope and determination and the remarkable power of one human voice **Angelic Wisdom About Divine Providence** Emanuel Swedenborg, 2006-01-01

The reader will find in this book a firm assurance of God s care of mankind as a whole and of each human being The assurance is rested in God s infinite love and wisdom the love pure mercy the wisdom giving love its ways and means It is further grounded in an interpretation of the universe as a spiritual natural world an interpretation fully set forth in the earlier book Divine Love and Wisdom on which the present work draws heavily As there is a world of the spirit no view of providence can be adequate which does not take that world into account For in that world must be channels for the outreach of God s care to the human spirit There also any eternal goal such as a heaven from the human race must exist A view of providence limited to the horizons of the passing existence can hardly resemble the care which the eternal God takes of men and women who besides possessing perishable bodies are themselves creatures of the spirit and immortal The full title of the book Angelic Wisdom about Divine Providence implies that its author in an other world experience had at hand the knowledge which men and women in heaven have of God s care Who should know the divine guidance if not the men and women in heaven who have obviously enjoyed it The laws of divine providence hitherto hidden with angels in their wisdom are to be revealed now As it is presented in this book providence seeks to engage man in its purposes and to enlist all his faculties his freedom and reason his will and understanding his prudence and enterprise It acts first of all on his volitions and thinking to align them with itself That it falls directly on history its events and our circumstances is a superficial view It is man s inner life which first feels the omnipresent divine influence and must do so If we cannot be lifted to our best selves and if our aims and outlook cannot be modified for the better how shall the world be bettered which we affect to handle

Paramount in God's presence with all men if only in their possibilities is His providential care. This care to which man's inner life is open is alert every moment not occasional. It is gentle and not tyrannical, constantly respecting man's freedom and reason, otherwise losing him as a human being. It has set this and other laws for itself which it pursues undeviatingly. The larger part of the book is an exposition of these laws in the conviction that by them the nature of providence is best seen. Is it not to be expected in a universe which has its laws and in which impersonal forces are governed by laws that the Creator of all should pursue laws in His concern with the lives of conscious beings? To fit a world of laws must not the divine care have its laws too? Adjustment of thought about divine providence to scientific thought is not the overriding necessity for scientific thought must keep adjusting to laws which it discerns in the physical world. In consonance religious thought seeks to learn the lawful order in the guidance of the human spirit. Do not each and all things in tree or shrub proceed constantly and wonderfully from purpose to purpose according to the laws of their order of things? Why should not the supreme purpose of heaven from the human race proceed in similar fashion? Can there be anything in its progress which does not proceed with all constancy according to the laws of divine providence?
