Europe: Continent of Conspiracies Andreas Önnarfors,André Krouwel,2021-04-29 This edited volume investigates for the first time the impact of conspiracy theories upon the understanding of Europe as a geopolitical entity as well as an imagined political and cultural space Focusing on recent developments the individual chapters explore a range of conspiratorial positions related to Europe In the current climate of fear and threat new and old imaginaries of conspiracies such as Islamophobia and anti-Semitism have been mobilised A dystopian or even apocalyptic image of Europe in terminal decline is evoked in Eastern European and particularly by Russian pro Kremlin media while the EU emerges as a screen upon which several narratives of conspiracy are projected trans nationally ranging from the Greek debt crisis to migration Brexit and the COVID 19 pandemic The methodological perspectives applied in this volume range from qualitative discourse and

media analysis to quantitative social psychological approaches and there are a number of national and transnational case studies This book will be of great interest to students and researchers of extremism conspiracy theories and European politics

Ethics, Society and Politics: Themes from the Philosophy of Peter Winch Michael Campbell, Lynette Reid, 2020-06-17 This volume is a reappraisal of the work of Peter Guy Winch 1926 1997 one of the most important philosophers of the 20th Century Winch faded into relative obscurity compared to his contemporaries due to a mistaken belief that there are no systematic connections between the different aspects of his work This volume corrects that presupposition and reintroduces Winch's work to a new generation of scholars By showing how ethical political and social issues are interrelated in Winch's work and by making clear the connections between these issues and themes in metaphysics and the philosophy of mind the volume demonstrates both the breadth and the unity of Winch's approach It discusses topics such as ethics political philosophy social science the philosophy of action the philosophy of mind metaphysics and the philosophy of language Despite this apparent variety of topics the contributors to the volume share Winch's conviction that the different areas of philosophy are interdependent As a result the volume as a whole shows unity in diversity and provides an example of a manner of philosophising in which different approaches and sub disciplines are placed in dialogue with each other Peter Guy Winch is most famous for his early work on the philosophy of the social sciences His *On the Idea of a Social Science and its Relation to Philosophy* ISS generated controversy within both philosophical and social scientific circles In that work and subsequent publications Winch

argued against the presupposition that social relations could be understood using the conceptual tools of the natural sciences. Winch would later describe ISS as a young man's book and would come to regret the reputation it garnered him a mixture of roughly equal degrees fame and infamy. Alongside his work on the philosophy of social sciences, Winch was an interpreter and exegete of Wittgenstein. He also published a ground-breaking study of the philosophy of Simone Weil entitled *Simone Weil: The Just Balance*. Winch also published numerous essays on issues in ethics, political philosophy and the philosophy of religion and at his death was working on a book manuscript on the problem of political authority.

Twentieth Century United States History Activity Sampler, 1999 *Fascist Italy and Nazi Germany* Richard Bessel, 1996-03-28 A collection of essays comparing key aspects of Nazi Germany and Fascist Italy **Rehabilitation Literature**, 1959 **Fascism and Paganism** Craig Read, 2006

Fascism is not a modern era phenomenon nor is it unique. It has been the de facto organizing principle of mankind for most of history. Paganism is a form of pre-modern fascism. Most religious orthodoxies are of course premised on pagan cults. Modern fascism uses the guise of spirituality in the form of paganism to spiritually justify its assault on civilization. When the two are fused, spiritual paganism with modern fascism, you have a violent and hate-filled philosophy that finds its expression in Hitlerism, Communism and Islam. This book compares these three modern forms of an age-old evil that has been the main obstacle to human progress. This book was written after extensive research, travel, interviews and help from others more knowledgeable on certain topics. I don't pretend to be an expert in all the areas of historical, political and economic development. Nor am I posing as the expert investigator on any of the chosen themes that populate the work. Thousands of more competent analysts exist in each area. I wrote this book to objectively narrate a common thread and threat in human history, namely that of Fascism and its orientalist genetic composition. It is important in life to impartially record reality, to see the world for what it is and to defend our civilization against utopia's fantasies and evil. In this regard, we need more literature and expositions which make the link between the various ideologies which are in essence pagan cults, their commonality throughout history and their threat to civilization. It is the threat posed to civilization by immoderate Islam, another type of pagan cult that prompted the creation of this summary work. Let me explain as well what this book is not. It is not a diatribe against individual Muslims; it is not a declaration of hate against any non-Western people, lands or empires; it is not intended to be the most detailed study of any of the fascist cults past or present and it is not intended to supplant any of the existing literature on Nazism, Stalinism or Islam. The book does intend, however, to show a common framework amongst the pagan ideologies that have tried to end mankind's development and extinguish liberty. To keep the book short and concise, I have chosen to focus on three primary cults, namely Hitler's Germany, Lenin-Stalinism in Russia and Islam. I could have discussed other cults and movements, but the essential points I want to make can be given by examining these three ideological fascisms. The conclusions formed by such a comparison can be extended to various other criminal ideologies and regimes throughout mankind's history. I hope the book clarifies some ideals, opens some minds and gives some food for

thought You can read the book in its entirety or skip to a chapter that is of more interest I have tried to keep all the footnotes down to a minimum though I do source all ideas that are not my own If you have any questions on sources content or where my ideas come from then please ask As for people who constantly harp that criticism is akin to hate speech do some reading live in a fascist state and understand what freedom really means My website is www.craigread.com Craig Read Toronto Canada Happy home of a corrupt paternalistic over governed Socialist State other works include 2 books on Churchill and USA vs Europe Power and Conflict many articles and opinions exist at www.craigread.com [Fascism, Comparison and Definition](#) Stanley G. Payne,1980 An impressive review of reputed fascist movements at once setting them apart from other authoritarian nationalist organizations and bringing them together within a qualified generic category Running throughout the volume and valuable to readers at every level is a careful critique of the major debates that divide scholars on this most unintelligible ism of them all The author precisely defines issues cites the best literature in the major European languages and offers with moderation and intelligence his own conclusions on the question Gilbert Allardyce American Historical Review

Nazism, Fascism and the Working Class Timothy W. Mason,1995-03-09 This collection of essays four of which are published in English for the first time represents the life s work of the historian Tim Mason one of the most original and perceptive scholars of National Socialism who pioneered its social and labour history His provocative articles and essays written between 1964 and 1990 exhibit a combination of empirical rigour and theoretical astuteness which made them landmarks in the definition and elaboration of major debates in the historiography of National Socialism These ten essays collect together Mason s most significant writings including discussions of the domestic origins of the Second World War the role of Hitler and the character of working class resistance as well as his pathbreaking study of women under National Socialism and examples of comparative work on fascism and Nazism A complete bibliography of his publications is also appended

Fascism and Nazism Robert Pearce,2003 *Fascism* Paul M. Hayes,2020-07-26 This book first published in 1973 sets out to clear away many of the confused ideas and misconceptions concerning the origins and nature of fascism The first section deals with the intellectual origins of fascism and examines the constituent strands and development of fascist theory including discussion of such topics as the myth of race the idea of the elite and the leader nationalism and the influence of militarism The book then goes on to look at fascism in action particularly in relation to economic affairs The author here examines the process by which the fascists came to power in Germany and Italy investigating both the political and social causes A third section contains discussion of the nature of more recent regimes in Greece Latin America and Africa

The Anatomy of Fascism Robert O. Paxton,2011-12-01 Fascism was the major political invention of the twentieth century and the source of much of its pain How can we try to comprehend its allure and its horror Is it a philosophy a movement an aesthetic experience What makes states and nations become fascist Acclaimed historian Robert O Paxton shows that in order to understand fascism we must look at it in action at what it did as much as what it said it was about He

explores its falsehoods and common threads the social and political base that allowed it to prosper its leaders and internal struggles how it manifested itself differently in each country France Britain the low countries Eastern Europe even Latin America as well as Italy and Germany how fascists viewed the Holocaust and finally whether fascism is still possible in today's world Offering a bold new interpretation of the fascist phenomenon this groundbreaking book will overturn our understanding of twentieth century history **Fascism** Hugh Purcell,1977 *Fascism* Seth H. Pultidor,2014-09-25 In the turbulent years after World War I a new type of governing philosophy took shape in a handful of countries It was known as fascism Fascism denied that individuals had any rights the state was bound to respect It demanded that citizens blindly obey their leader It glorified violence It promised to purify a degraded culture and restore the nation to greatness Full fledged fascist governments came to power in Italy under Benito Mussolini and in Germany under Adolf Hitler and the Nazis In addition significant fascist movements existed in several other countries Fascism led to some of the darkest episodes in human history including the Holocaust before being swept away by World War II This book details the rise and fall of a discredited form of government **Nazism as Fascism** Geoff Eley,2013-05-29 Offering a dynamic and wide ranging examination of the key issues at the heart of the study of German Fascism Nazism as Fascism brings together a selection of Geoff Eley's most important writings on Nazism and the Third Reich Featuring a wealth of revised updated and new material Nazism as Fascism analyses the historiography of the Third Reich and its main interpretive approaches Themes include Detailed reflection on the tenets and character of Nazi ideology and institutional practices Examination of the complicated processes that made Germans willing to think of themselves as Nazis Discussion of Nazism's presence in the everyday lives of the German People Consideration of the place of women under the Third Reich In addition this book also looks at the larger questions of the historical legacy of Fascist ideology and charts its influence and development from its origin in 1930's Germany through to its intellectual and spatial influence on a modern society in crisis In *Nazism as Fascism* Geoff Eley engages with Germany's political past in order to evaluate the politics of the present day and to understand what happens when the basic principles of democracy and community are violated This book is essential reading not only for students of German history but for anyone with an interest in history and politics more generally
