web feb 20 2016 differential geometry i please note that this page is old check in the vvz for a current information contents

this course is devoted to differentiable manifolds we begin by studying their differentiable functions maps and the rank theorem

eth d math differentialgeometrie ii - Feb 26 2022

web jun 2 2016 prerequisites manifolds and tangent bundles as taught e g in the differential geometry i course during the fall semester 2015 contents in this course we will define riemannian metrics on smooth manifolds and use them to study geodesics we also study derivatives of vector fields with respect to each other leading to the notion of connection
