Introduction

The AV Center is a compact and convenient system for your home theater. It features a variety of inputs and outputs, allowing you to connect a wide range of audio and video equipment. The system is designed to provide a high-quality audio and video experience in a small footprint.

Connections

Before connecting any equipment, please read the following instructions carefully. The AV Center is designed to be connected to a variety of equipment, including televisions, VCRs, DVD players, and more. The connection diagrams show the recommended setup for each type of equipment.

Power Connections

The AV Center is powered by a standard AC power source. It is important to connect the power cord to a grounded outlet to ensure safe operation. Do not use an extension cord or a power strip, as this may cause overheating or damage to the unit.

Audio Connections

The AV Center has several audio inputs and outputs. The front panel features a set of speakers for stereo sound. The rear panel has inputs for a subwoofer and additional speakers. The connection diagrams show how to connect these components for the best sound quality.

Video Connections

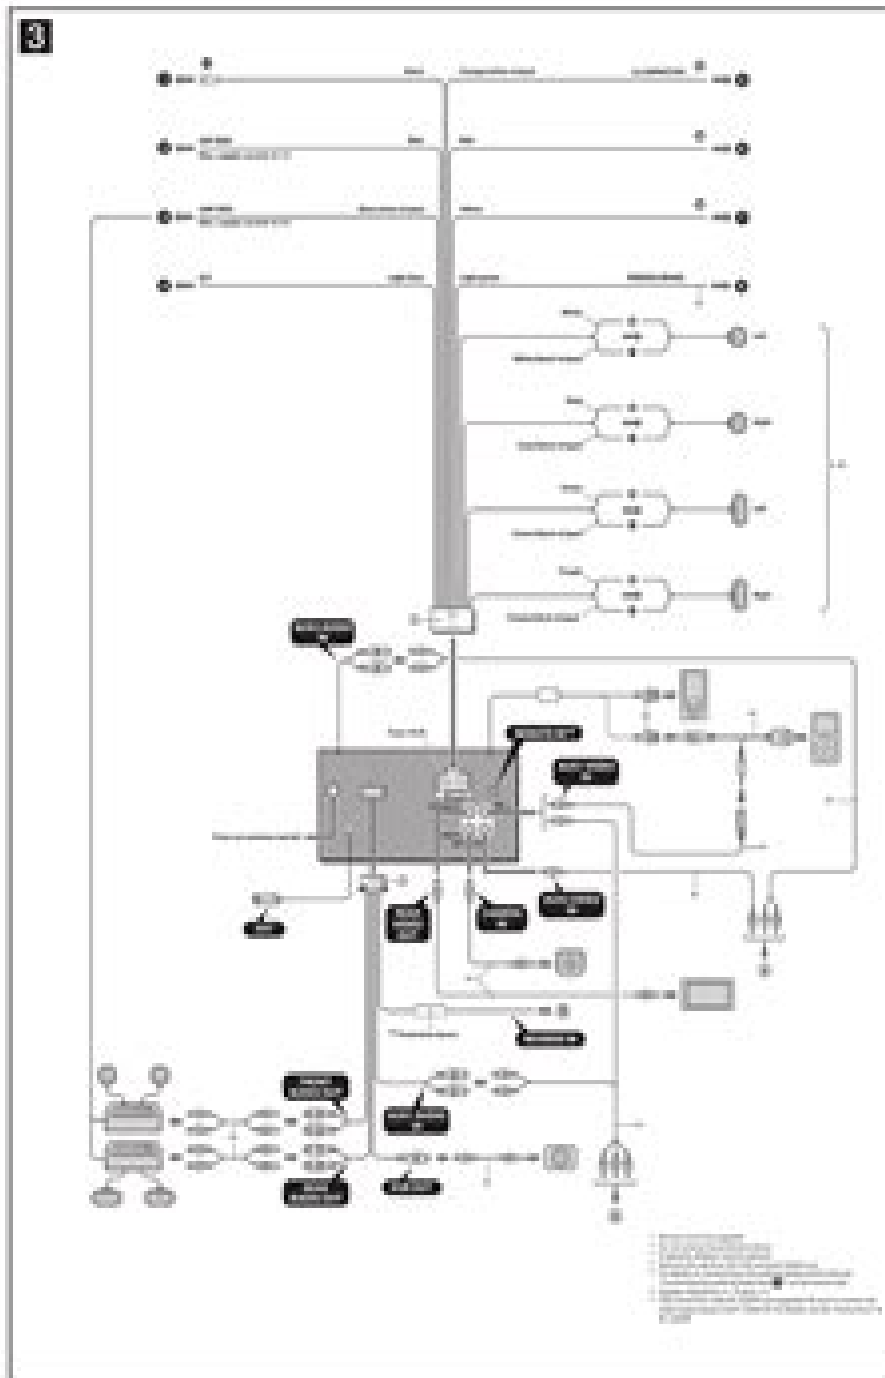

The AV Center supports a variety of video input formats, including composite video, S-Video, and component video. The connection diagrams show how to connect your video source to the AV Center for the best picture quality.

Control Connections

The AV Center is controlled by a remote control. The remote control is included with the unit. The connection diagrams show how to connect the remote control to the AV Center for easy operation.

Specifications
