Peer Response In Second Language Writing Classroom Jette G Hansen:

Peer Response in Second Language Writing Classrooms, Second Edition Jun Liu, Jette G. Hansen Edwards, 2018-05-25

Since the publication of the first edition in 2002 there have been two major developments in L2 writing and peer response teaching and research. The first is the increased interest in CALL and computer mediated communication CMC for L2 pedagogy. The second is the accessibility and viability of research on L2 peer response from all over the world. Both developments are thoroughly addressed in this new edition. Now that classes are as likely to be online as held in physical classrooms and now that a new generation of digital natives can routinely read and respond to what others write via laptops, tablets and phones, peer response as pedagogical practice is not just more easily implemented but it is more likely to feel natural to L2 learners. The Second Edition is a highly accessible guide to how the world is using peer response and serves as a motivator and facilitator for those who want to try it for the first time or want to increase the effectiveness of the activities whether via CMC or not. The volume includes 11 forms useful in training students to provide good peer feedback including a final checklist to ensure teachers have taken all the necessary steps to achieve a successful peer feedback activity.

Assessment in the Second Language Writing Classroom Deborah Crusan, 2010-07. *Assessment in the Second Language Writing Classroom* is a teacher and prospective teacher friendly book uncomplicated by the language of statistics. The book is for those who teach and assess second language writing in several different contexts: the IEP, the developmental writing classroom and the sheltered composition classroom. In addition, teachers who experience a mixed population or teach cross-cultural composition will find the book a valuable resource. Other books have thoroughly covered the theoretical aspects of writing assessment but none have focused as heavily as this book does on pragmatic classroom aspects of writing assessment. Further, no book to date has included an in-depth examination of the machine scoring of writing and its effects on second language writers. Crusan not only makes a compelling case for becoming knowledgeable about L2 writing assessment but offers the means to do so. Her highly accessible, thought-provoking presentation of the conceptual and practical dimensions of writing assessment both for the classroom and on a larger scale promises to engage readers who have previously found the technical detail of other works on assessment off-putting as well as those who have had no previous exposure to the study of assessment at all.

Treatment of Error in Second Language Student Writing, Second Edition Dana Ferris, 2011-09-21

Treatment of Error offers a realistic, well-reasoned account of what teachers of multilingual writers need to know about error and how to put what they know to use. As in the first edition, Ferris again persuasively addresses the fundamental error treatment questions that plague novice and expert writing specialists alike: What types of errors should teachers respond to? When should we respond to them? What are the most efficacious ways of responding to them? And ultimately, what role should error treatment play in the teaching of the process of writing? The second edition improves upon the first by exploring changes in the field since 2002, such as the growing diversity in what is called L2 writers, the blurring boundaries between

native and non native speakers of English the influence of genre studies and corpus linguistics on the teaching of writing and the need the move beyond error to second language development in terms of approaching students and their texts It also explores what teacher preparation programs need to do to train teachers to treat student error The second edition features an updating of the literature in all chapters a new chapter on academic language development a postscript on how to integrate error treatment language development suggestions in Chapters 4 6 into a writing class syllabus the addition of discussion analysis questions at the end of each chapter plus suggested readings to make the book more useful in pedagogy or teacher development workshops

Implementing Collaborative Writing Tasks in Multilingual Classrooms Mimi Li, Neomy Storch, 2025-08-18 Connecting collaborative writing pedagogy to teaching practice *Journal Writing in Second Language Education* Christine Pearson Casanave, 2011-02-04 Journal writing is not new journals have been around for centuries More recently journals have been viewed as a means of scaffolding reflective teaching and encouraging reflectivity in research processes As a result some educators may ask What more do we need to know Those likely to raise this question are probably not thinking of the explosive growth of reflective writing enabled by social networking on the Web the blogs and other interactive e vehicles for reflection on experiences in our literate real and virtual lives This revisiting of journal writing from a 21st century perspective informed by relevant earlier literature is what Christine Pearson Casanave guides readers through in this first book length treatment of the use of journal writing in the contexts of language learning pre and in service teaching and research Casanave has put together existing ideas that haven t been put together before and has done it not as an edited collection but as a single authored book She has done it in a way that will be especially accessible to teachers in language teacher education programs and to practicing teachers and researchers of writing in both second and foreign language settings and in a way that will inspire all of us to think about not just do journal writing Those who have never attempted to use journals in their classes and own lives as well as others who have used it with mixed results will probably be tempted to try it in at least some of the venues Casanave provides guidance for Those already committed to journal writing will very likely find in this book new reasons for expanding and enhancing their use of journals

Current Trends in the Development and Teaching of the four Language Skills builds connections from theory in the four language skills to instructional practices It comprises twenty one chapters that are grouped in five sections The first section includes an introductory chapter which presents a communicative competence framework developed by the editors in order to highlight the key role the four skills play in language learning and teaching The next four sections each represent a language skill Section II is devoted to listening Section III to speaking Section IV to reading and Section V to writing In order to provide an extensive treatment of each of the four skills each section starts with a theoretical chapter which briefly illustrates advances in the understanding of how each skill is likely to be learned and taught followed by four didactically

oriented chapters authored by leading international specialists These pedagogical chapters deal specifically with four key topics 1 areas of research that influence the teaching of a particular skill 2 an overview of strategies or techniques necessary for developing a particular skill 3 an approach to the academic orientation of a particular skill and 4 unique aspects of teaching each skill Moreover all chapters incorporate two common sections pre reading questions at the beginning of the chapter in order to stimulate readers interest in its content and a section entitled suggested activities at the end of the chapter in order to allow readers put the ideas and concepts presented into practice The accessible style and practical focus of the volume make it an ideal tool for teachers teacher trainers and teacher trainees who are involved in teaching the four language skills in a second or foreign language context
