

The answers to the practice questions below are as given to the IB examiners.

The following notes may help you to interpret these and make full use of the guidance given.

- There are no half marks awarded. Each mark is shown by the number in brackets (1).
- Points worth single marks are separated from each other by a semicolon (;).
- Alternative possible answers are separated from each other by a dash (/).
- Any answer given in **bold** or underlined *must* be present to score the mark.
- Information in brackets ( ) is not needed to score the mark.
- Notes given in italics are to guide the examiner on what to accept/reject in their marking.
- OWTTE means 'or words to that effect', so alternative wording that conveys the same meaning can be equally rewarded.
- ECF means 'error carried forward', so examiners must award marks for an incorrect answer from an earlier part of a question used correctly in a subsequent step.
- MP1, MP2 etc. represent method marks to be awarded by an examiner for answers showing the appropriate steps of the working (method) necessary for answering the question.

You may notice occasional differences between the calculations or wordings given in the answers and those in the worked solutions. This is because the answers give the final solution with the minimum of working, and the worked solutions provide the extra reasoning and working needed to understand how the answers are attained.
